

The background of the cover features a large, faint, circular seal of the Juvenile Justice Authority of the State of Kansas. The seal contains a landscape illustration with a river, hills, a factory, and a farm. The text "JUVENILE JUSTICE AUTHORITY" is arched across the top, and "STATE OF KANSAS" is arched across the bottom, separated by two stars.

# 1. INTRODUCTION

---

The Juvenile Justice Commissioner shall operate the juvenile intake and assessment system as it relates to the juvenile offender as stated in [K.S.A. 75-7024](#). The information captured and maintained will be part of the a juvenile information system used to properly advise the three branches of government on the operation of the juvenile justice system as identified in [K.S.A. 38-1618](#). The information is stored in a central data repository as defined by [K.S.A. 22-4701](#). The intake and assessment centers also address CINC (Child In Need of Care) as defined in [K.S.A. 38-1502](#) and with access to information as defined in [K.S.A. 38-1507](#).

[K.S.A. 38-1624](#) states “When any law enforcement officer takes an alleged juvenile offender into custody, the juvenile shall be taken without unnecessary delay to an intake and assessment worker if an intake and assessment program exists in the jurisdiction, or before the court for proceedings in accordance with this code or, if the court is not open for the regular conduct of business, to a court services officer, a juvenile intake and assessment worker, a juvenile detention facility or youth residential facility which the court or the commissioner shall have designated. The officer shall not take the juvenile to a juvenile detention facility unless the juvenile meets one or more of the criteria listed in [K.S.A. 38-1640](#), and amendments thereto. Even if the juvenile meets one or more of such criteria, the officer shall first consider whether taking the juvenile to an available nonsecure facility is more appropriate.”

The intake assessment includes the use of a formalized process or set of procedures for gathering comprehensive information about a youth in order to determine the needs of the youth and to make referrals based on that data. The assessment information includes the following:

- Juvenile’s conduct resulting in the current law enforcement contact
- Physical and mental health status
- Educational background and needs
- Substance use or abuse history
- Prior and current contact with social services
- Offense history or prior police contact
- Abuse or neglect history
- Economic situation or job status
- Demographic information

When comprehensive information is gathered at the youth's first contact with the system, it is used to determine whether the youth should be diverted from the juvenile justice system or what disposition and services are appropriate. Accurate initial assessment of a juvenile suspect has a tremendous impact on every phase of the juvenile court process. Without comprehensive and accurate information about the youth, appropriate decisions about detention, diversion, charging, and plea agreements are difficult for juvenile justice

professionals, as are the decisions regarding disposition, placement, service referrals, resource allocation, and appropriations which must be made by judges, service providers and policy makers. By accurately assessing the youth's needs, appropriate services can be identified and preventative measures for at-risk youth can be implemented. (Dembo & Brown, 28-31.)

Whenever a youth comes to the attention of the legal system because of an alleged crime or the youth is designated as a child in need of care (CINC), an assessment will be performed for the youth at a Juvenile Intake and Assessment Center. Through this assessment an examination will be conducted of the youths current level of performance and satisfaction at their own home, at their school, on their job (if they have one), and any other activities in which they may be participating. The questions being asked examine the youth's relationships with family members, friends, and authority figures in their life. With the help of their parents or guardians, along with the guidance of an intake counselor, the youth and their family are able to formulate a plan of action that will allow the youth to build on their strengths and make changes in any problem areas in order to succeed in their goals avoiding any future contact with the legal system. Any previous contact with the legal system or with community support systems will be reviewed to determine what sorts of experiences have helped the youth in the past, and which experiences have not been as helpful.

The juvenile intake and assessment procedure generally begins when a law enforcement officer arrests a juvenile suspect or takes custody of a child believed to be in need of care. The officer taking custody of the youth generally takes the youth to a Juvenile Intake and Assessment Center (JIAC) or to an intake worker. In larger communities, an intake and assessment worker should be available 24 hours a day while smaller communities rely on intake workers on an on-call basis. The key tools of the new system is the Juvenile Intake and Assessment Questionnaire (JIAQ - which is a structured interview and an assessment tool), the Problem Oriented Screening Instrument for Teenagers (POSIT), designed by the National Institute on Drug Abuse and/or the Massachusetts Youth Screening Instrument-second version (MAYSI-2), developed with a grant from the William T. Grant Foundation MAYSI-2.

The JIAQ and the POSIT or MAYSI-2 are used to gather information in the areas of substance abuse, physical health, mental health, social skills, peer relations, family relations, educational status, vocational status, leisure/recreation, and aggressive/delinquent behaviors. These areas of functioning are most critically related to youths exhibiting problem behaviors.

The JIAQ is designed to provide a statewide procedure for gathering uniform and consistent information about the youth. This information from this screening tool assists intake workers in making referral and placement decisions and is used to determine service needs throughout the state and the availability of resources for troubled youth and families.

Information gathered by the JIAQ questionnaire is obtained from the youth, law enforcement officers, and the family. The questionnaire addresses four major parts: (1)

Youth and Family Registration, (2) Intake Information, (3) Youth and Family Demographics, and (4) Result of Intake.

1. Youth and Family Registration: Each intake event is automatically assigned a number and each child or juvenile is assigned a personal ID number. This number is important for tracking the youth. Personal and family/guardian information is entered here.
2. Intake Information: Event specific information, based on statutory provisions, is recorded identifying offense information in the case of a juvenile suspect or the need for custody for an alleged child in need of care.
3. Youth and Family Demographics: A juvenile's prior record of police, court, or intake contact; school information; substance abuse/use; the youth's and family's psychological treatment history; gang involvement; economic situation; and victimization history are recorded.
4. Result of Intake: The intake worker completes this section. It identifies the type of recommended placement or referrals; who is transporting the youth; what services were recommended, but were not available; length of time to arrange emergency placement; length of time to transport to placement; and any other critical elements of the intake that require follow-up.

The Juvenile Justice Intake and Assessment Management System (JJIAMS) computer application is a database application designed to capture the information from the JIAQ and the assessment results (from either the POSIT and/or the MAYSI-2) and provide user and performance reports. A user may print or view reports based on information gathered from the questionnaire. The reports consist of pertinent fields of information arranged for a particular end-user. The computerized system includes report formats created especially for county or district attorneys, Social Rehabilitation Services (SRS), Court Services, and Community Corrections. Information is maintained to provide performance reports displaying information about the intake process that is useful in determining the time interval between arrest and intake, the duration of intake, the services provided, and the time requirements for arranging and completing placement

The JJIAMS computer application will ultimately be part of a statewide-integrated Juvenile Justice Information System network for entering, saving, managing, querying, and reporting on information about all youths that come into contact with the Juvenile Justice Authority. The JJIAMS application is made up of a number of separate software modules. This documentation describes the processing of youth information in the Juvenile Justice Intake & Assessment Management System application.

## **SYSTEM INFORMATION**

---

The JJIAMS application is designed to run in the following environment:

- Microsoft NT server with appropriate service packs
- SQL Server 7.0 or greater with appropriate service packs

- Windows NT workstations, Windows 95, Windows 98, Windows 2000, Windows XP clients
- Microsoft Office 2000 or greater Professional software
- MSDE (Microsoft Data Engine)
- Minimum client hardware configuration - 128 mb of memory, 5 gig hard drive, Pentium 300 mzh processor, 15" monitor
- Recommended client hardware configuration - 128 mb of memory, 10 gig hard drive, Pentium 750 mzh processor, 17" monitor

## OVERVIEW

---

The JJIAMS application is an information-processing tool designed for ease of access, ease of entry, and ease of viewing while providing many features that provide security and completeness. The application was designed to ensure the process of obtaining information from the youth is the primary focus, and the application is a tool for performing the task. There was a special effort to design the application to require the intake worker to have minimal computer knowledge, and provide a process button and tab process “look and feel”, requiring a “point and click” type of navigation. The special features of the JJIAMS application enhance the information process, reducing the amount of time required for the overall intake to be recorded.

### Special Features:

This section will describe some of the special features that make this application easy to use.

- There are various levels of security that are supported. This provides a safeguard for entering, changing, and viewing the data.
  - Administrator Only – maintains tables and sign-on
  - Supervisor – Can perform all functions and is responsible for indicating the capture of the intake information is complete
  - Intake Worker – Can enter and edit an intake but cannot make final approval
  - View Only – Can view but make no changes
- The intake for a youth is not considered complete until all of the required data is captured and a supervisor approval is given.
- Access to the major processes is identified with buttons. Place the cursor on the button and press the left click on the mouse.

- The application is designed for ease of access and quick navigation. The application uses various pages for entry, editing, and reviewing of information.

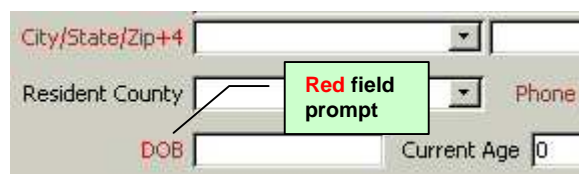

Selection of the pages is as simple as placing the cursor on the tab or page heading of the desired page and left click the mouse button.

- The application provides easy identification of the pages that fail to have all of the required fields keyed. The **red** bar at the top of the page tab indicates there are required fields yet to be captured. If there is no red bar, all required fields have been entered for that page.

- The field prompts in **red** identifies the required fields. This provides a quick visual to ensure the minimum required information is collected.

- The ability of partially completing an intake and then returning at a later time to finish. Select the Finish Partial Intake/Assessment button:

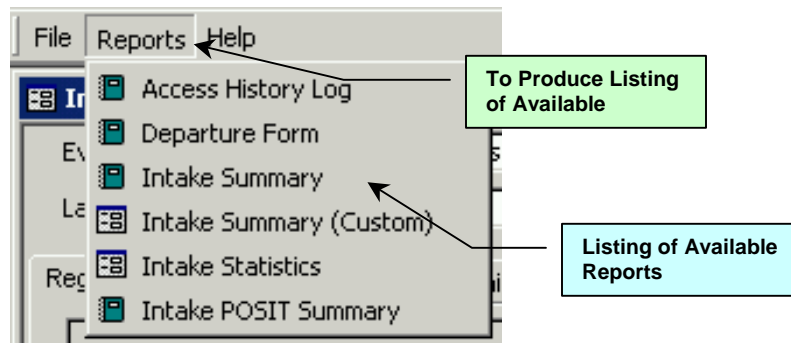

This will display a listing of the intakes that are not complete, either by not having all of the required fields filled in or having supervisor approval.

Find Incomplete Intake and Assessment Records			
Intake ID	Intake Date	Last Name	First Name
5	7/22/2001	Dingle	Ringle

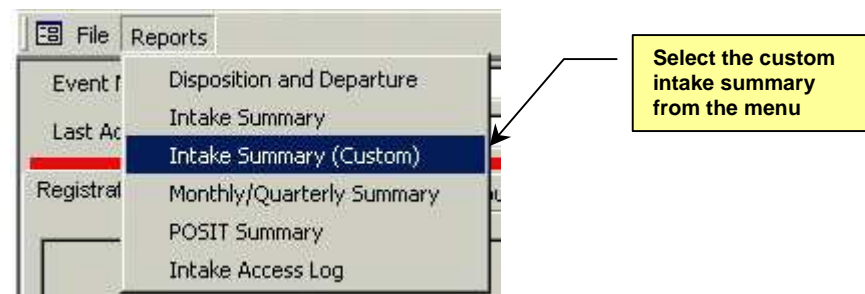

A selection may be made at this time to enter into an edit mode for finishing the intake.

- The ability to produce pre-defined reports is as simple as point and click. By moving the cursor on the word Reports and left-click the mouse.

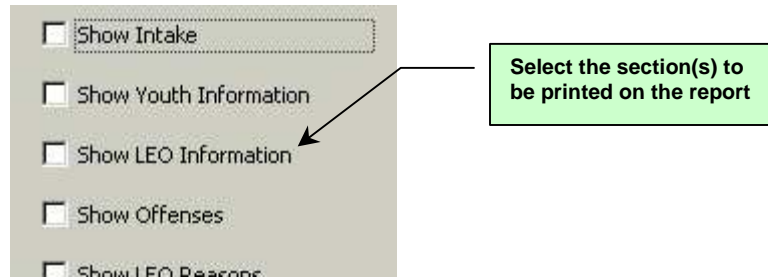

The pre-defined reports will be displayed. Place the cursor on the report desired and left-click the mouse for a pre-view and ability to produce a printed report.

- The application supports the ability to define specific intake components for a customized intake summary report.

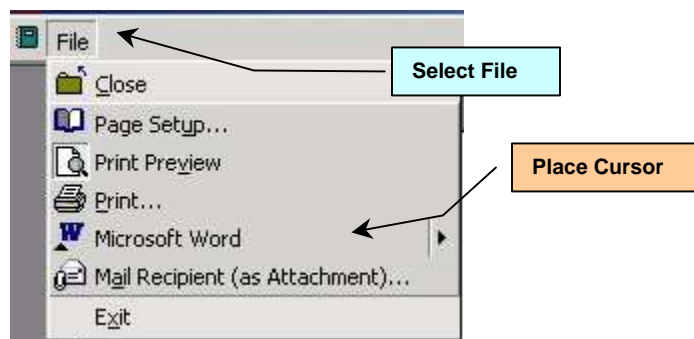

After selecting the custom intake summary selection, selection criteria are offered:

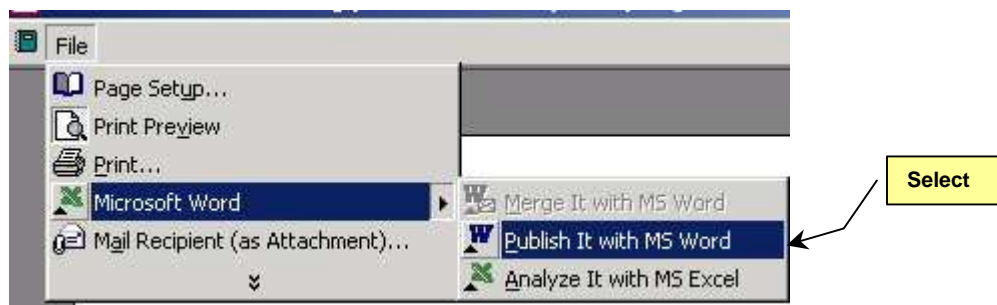

Each section to be printed on the intake summary report is marked. The report may be previewed and printed. In an effort to make this more useful, the selected sections will be remembered for the next access.

- The application supports the ability to either print the selected report or to make it a word document. While previewing the report, select “File” – then place the cursor on Microsoft Word. This will open a sub-menu.

Place the cursor on the words “Publish It with MS Word” and left-click the mouse

button. This will open MS Word and place the document and/or report into it. The document then may be treated as a Word document.

- The application provides the ability to query the local database to determine if the youth has had a prior intake. By placing the cursor on the “Find Intake” and left-click the mouse button.

The “Find Previous Intake” screen will be displayed, showing other existing youth records that meet the same search criteria. If the name is entered on the ID screen, that name will be used in the Last Name and First Name fields. New names may be keyed for searching other names.

Event Number	Last Name	First	h Date	Intak
5	Dingle	Ringle		7/22/

From here, there is the option of selecting a name and copying key information from the ID tab, Physical Characteristics tab, and the Parent/Caregiver tab of the prior intake and populate the current intake. Select the name by placing the cursor on the line displaying the name and left-click the mouse.

Then proceed to the bottom of the page and select the Copy To Intake button. The application will then populate specific fields.

- The ability to easily transfer an intake from one computer to another using a diskette is as easy as point-and-click. By placing the cursor on the File, a menu is displayed offering the options of importing an intake from a diskette or exporting the intake to a diskette.

- The application will display static related information for each intake page. This information is for quick reference and access. The information displayed is the intake number, the youth’s name (after the name is entered into the ID page), the identification and date of the user that last accessed this event, and the JJIS, KBI, and INS number assigned. In addition, the ability to perform search of the local database, the updating of the JJIS at central office (once complete and approved), and a finished buttons are made available. Note: the finished only states the user is concluding the process of the event and not that all of the required fields and actions are complete).

File Reports

Event Number: 15 Doe John1 Find Intake Update JJIS Finished

Last Accessed: Demo User 7/29/2001 9:53:13 AM JJIS ID SID / KBI Num INS Num

- The Finished Button is a simple way to communicate to the application the user wants to finish working on the current intake. The intake will be updated at this time.

## DATA ENTRY BASICS

The JJIAMS application uses standard methods for data entry. This section presents the main data entry methods that will be used with this application.

### SELECTING PAGES

The application consists of pages or tabs designed to capture the designated information. The selection of the page to work on is achieved by placing the cursor on the page identifier and left-click on the mouse.

Event Number: 17

Last Accessed: Demo User 7/29/2001 8:42:00

Registration ID Phys Char Family Household Law Prior School

Row of page or tab descriptions

### ADDING ROWS

There will be occasions when there is the need to add additional rows in a display. This is accomplished by placing the cursor on the box that shows either an asterisk or an arrow and left-click the mouse button.

Reason for Treatment Referral

Reason Code
Court Referred
Eating Disorder
*

Place cursor where asterisk indicates

Treatment Agencies

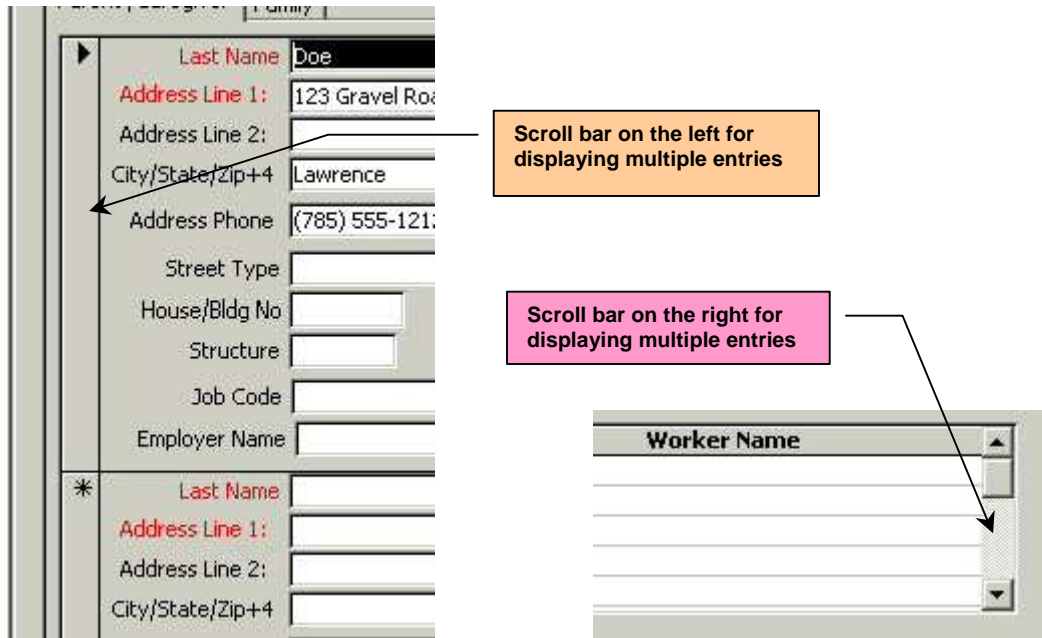

Agency Name	Co
DCAA	Douglas
▶	

Place cursor where arrow indicates

## SCROLLING

---

There are times when the information captured cannot be displayed in its entirety on the form. The application supports the ability to scroll to the additional information. There are two types of scrolling supported by the application. Both provide the ability of capturing and displaying one to many occurrences of like information.

## TYPING IN DATA

---

In some cases, typing of data will be done in blank boxes such as the ones shown below.

House/Bldg No	<input type="text"/>
Structure	<input type="text"/>

To enter data, simply tab to the box and begin typing, or place your cursor in the box, click the left mouse button, and type. After you have entered the data, tab to the next box.

There are numerous memo fields for collecting narrative information. Using the enter key when a new narrative line is to begin will move the cursor out of the memo field and place it at the next logical field for entry. To obtain a new narrative line press the Ctrl key and return key simultaneously. This will cause a new line to be designated and maintain focus in the memo field.

Please refrain from using an apostrophe in data that will be used with the import/export process as the database SQL uses this code for identifying fields. It will create an error when the import/export facility is used.

## ***SPELL CHECK***

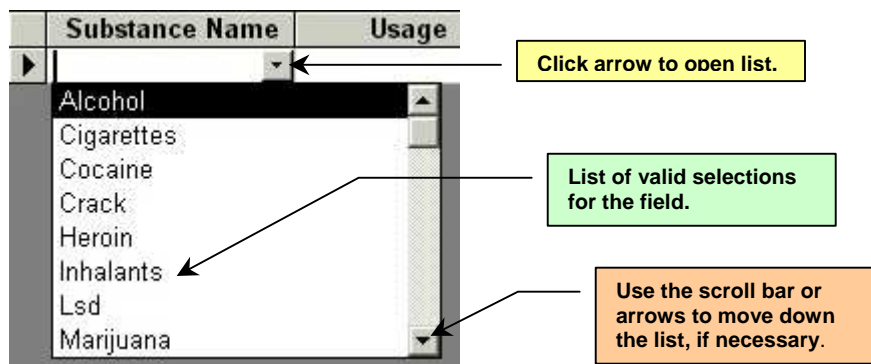

---

The application does support limited spell checking. It is important to highlight the data prior to pressing the F7 (spell check) function key. If the information to be spell checked is not highlighted, the application may not function correctly.

## ***SELECTING FROM DROP-DOWN LISTS***

---

The ability to select the data that is valid for the field is, in many cases, provided with drop-down lists. The use of drop-down lists is identified with a down arrow at the right hand side of the entry box. The lists appear in boxes, and when the number of selections is greater than the size of the box, with a scroll bar is provided at the right-hand side.

To complete a box with a drop-down list, place the cursor on the down arrow and click the left mouse button, and the list will appear.

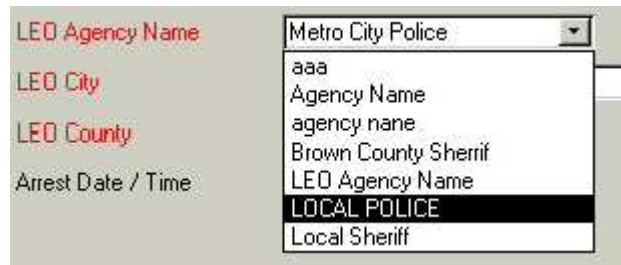

There may be times when there is a desire to not use the mouse and maintain hand position. Once the cursor is on a field with a drop-down arrow, press the Alt key and down arrow simultaneously to open the selection box. Then scroll up or down using the arrow keys. Once the selection is highlighted, press the enter key for selection.

## ***ADDING TO DROP-DOWN LISTS***

---

There will be instances when the drop-down lists do not offer the selection needed and a new selection needs to be added. The user can have the administrator or supervisor adds this information through table maintenance or, in some cases, can add the information dynamically. The example below shows the entered name does not exist in the current drop down selection.

A pop-up box appears provides the opportunity of either saving the new information or determining there was a data entry error.

By pointing the cursor on the Add button and left clicking the mouse key the new entry will be added to the drop-down selection table. By pointing the cursor on the Cancel button and left clicking the mouse key the field is re-displayed with the opportunity of modifying.

## ***CHECKING BOXES*** \_\_\_\_\_

You will sometimes need to enter checkmarks in boxes to indicate yes/no situations:

Simply click the appropriate box or boxes to select. If you decide you have clicked on a box inappropriately, click the box again to deselect it.

## ***UNAVAILABLE COMMANDS OR OPTIONS*** \_\_\_\_\_

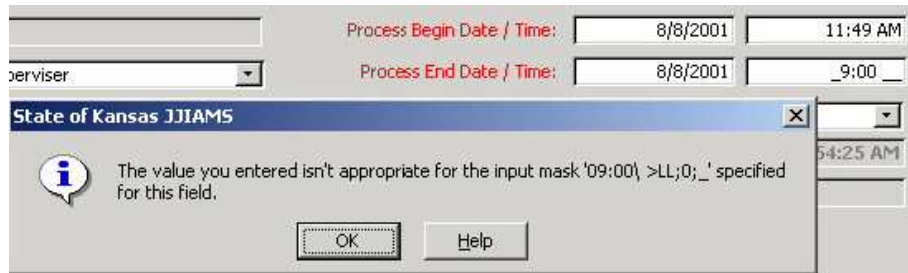

In using the JJIAMS application, there may be particular items or button labels that appear grayed or dimmed. Whenever an item or button label appears dimmed, the associated command or option is unavailable. The item may become available when a different screen is open, or it may be associated with a module not currently operative in the JJIAMS application.

## ***TIME ENTRY***

---

The time should be entered in AM / PM clock time. The time entry requires a two-digit entry of the hour and two-digit entry of the minutes along with either the AM or PM. Failure to enter the required fields will result in an error message:

Select the OK button and key in the appropriate time. If there is a time entered beyond 1200 (e.g. 1201 to 2400), the time will be considered military time and will be converted.

## ***DATE ENTRY***

---

The date entry requires a four-digit entry of the year. The application will display either a four-digit year or will reduce the four-digit year to display only the last two digits. Failure to enter the required fields will result in an error message:

Select the OK button and key in the appropriate date; ensuring a four-digit year is entered.

## ***NAVIGATING REPORTS***

---

Initiates the search function to find a specific report

Scrolls backward to the beginning report

Scroll backward one report

Scroll forward one report

Scrolls forward to the end report

Create a new report

Delete the current report

## 2. SIGN-ON

The **Sign On Screen** is the entry point to JJIAMS application. The worker will enter their personal User ID identifying the person and enter their individual password. The password is not displayable when entered. After the validation of the User ID and Password, their name, the last time they logged on, and their agency ORI is displayed. Based upon the individual's security, access buttons are displayed. The following is the original screen that is displayed after selecting the application icon:

The screenshot displays the JJIAMS Sign-On interface. The window title is "State of Kansas Juvenile Justice Authority Intake and Assessment". The main header reads "Juvenile Justice Intake and Assessment System". Below this, it says "State of Kansas Juvenile Justice Authority". On the left is a "Messages" section with a large empty box and a "View More" button at the bottom. On the right is the login section with fields for "USER ID" and "PASSWORD", a "Login" button, and fields for "UserName", "Last Login", and "Agency ORI". Below these are several buttons: "Find Previous Intake", "Assign JJIS IDs", "Need to Send to JJA", "Finish Partial Intake", "Send All", "Administrator", "Find Previous From JJA", and "Custom Inquiry and Reports". At the bottom right, it shows "Version: 4.0 08/01/2005" and "Database: District #02". Annotations include a yellow box labeled "Type in User ID" pointing to the User ID field, and a green box labeled "Type in User specific Password" pointing to the Password field.

The messages section on the sign-on screen is the vehicle used by JJA central office to provide notes and messages to the end-users. It is functional only by those users connected to the terminal-server edition.

## SIGN-ON SCREENS

Application functions are made available based on the security designation of each person. Options to be able to enter, view only, to perform administration efforts only, and to perform supervisor activities. After the user id and password are entered a validation process is performed to ensure the user is entitled to access the application. Once the user is validated the user name, the last time the individual signed onto the application, and their agency ORI are displayed. The menu buttons related to the processing the user is secured for are made available.

### *SUPERVISOR SIGN ON*

The following is an example of the screen that would be displayed as a supervisor. The supervisor has the options of performing all functions. All of the function buttons are available for selection.

The screenshot shows a web application window titled "State of Kansas Juvenile Justice Authority Intake and Assessment". The main content area has a blue header with the text "Juvenile Justice Intake and Assessment System" and "Juvenile Justice Authority". On the left, there is a "Messages" section with a large white box. On the right, there is a login section with fields for "USER ID" (supervisor) and "PASSWORD" (\*\*\*\*\*), a "Login" button, and a display area showing "UserName: Supervisor", "Last Login: 8/15/2005 11:17:52 AM", and "Agency ORI: District #02". Below this, there is a grid of buttons: "New Intake", "Find Previous From JJA", "Custom Inquiry and Reports", "Find Previous Intake", "Assign JJIS IDs", "Need to Send to JJA", "Finish Partial Intake", "Send All", and "Administrator". At the bottom right, it says "Version: 4.0 08/01/2005" and "Database: District #02". A "View More" button is located at the bottom center. Two callout boxes are present: a yellow one pointing to the login section stating "Shows user name, their last sign-on, and their respective ORI" and a green one pointing to the buttons grid stating "Application Function Buttons".

Notice the “Administrator” button is dimmed. A dimmed button will not function.

## VIEW ONLY

For those individuals who need to have view access but are not to add or change data, they can be designated for view only. The following is an example of the view only sign-on screen.

The screenshot shows a web application window titled "State of Kansas Juvenile Justice Authority Intake and Assessment". The main content area has a blue header with the text "Juvenile Intake and Assessment System" and "State of Kansas Juvenile Justice Authority". On the left, there is a "Messages" section with a large empty box. On the right, there is a login section with fields for "USER ID" (containing "viewonly") and "PASSWORD" (containing "\*\*\*\*\*"), and a "Login" button. Below the login section, there is a table displaying user information:

UserName	View Only
Last Login	10/22/2004 5:37:26 PM
Agency ORI	District #02

Below the table, there are several buttons: "New Intake", "Find Previous From JJA", "Custom Inquiry and Reports", "Find Previous Intake", "Assign JJIS IDs", "Need to Send to JJA", "Finish Partial Intake", "Send All", and "Administrator". At the bottom right, it shows "Version: 4.0 08/01/2005" and "Database: District #02". A "View More" button is located at the bottom center of the main content area.

## **ADMINISTRATOR**

There will be organizations that separate the administration functions from the core business workers. These individuals would be responsible for maintaining some site-specific drop down data selections, administrating the security assignments, and other support functions. The following is an example of the sign-on screen for an administrator.

The screenshot shows a web application window titled "State of Kansas Juvenile Justice Authority Intake and Assessment". The main content area has a blue header with the text "Juvenile Justice Intake and Assessment System" and "State of Kansas Juvenile Justice Authority". On the left, there is a "Messages" section with a large empty box and a "View More" button at the bottom. On the right, there is a login section with fields for "USER ID" (containing "admin") and "PASSWORD" (containing "\*\*\*\*\*"), a "Login" button, and a section for "UserName" (containing "Admin Only"), "Last Login", and "Agency ORI" (containing "District #02"). Below these are several buttons: "New Intake", "Find Previous From JJA", "Custom Inquiry and Reports", "Find Previous Intake", "Assign JJIS IDs", "Need to Send to JJA", "Finish Partial Intake", "Send All", and a button labeled "Administrator!". At the bottom right, it says "Version: 4.0 08/01/2005" and "Database: District #02".

## **SIGN ON ERROR**

If either the user id or the password is incorrect, the following message will be displayed:

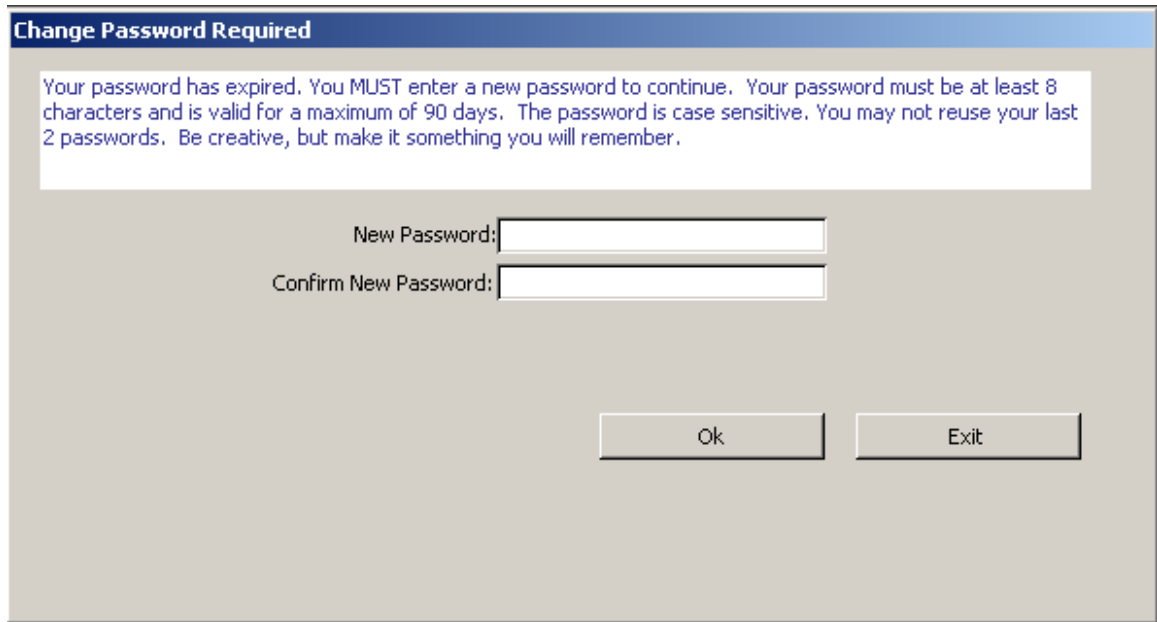

This will allow the user the opportunity to correct their sign-on.

## ***PASSWORD EXPIRATION***

---

The application provides the capability of setting the amount of time a password is valid. As a security measure, there may be sites that require the changing of passwords on a set frequency basis. When a user signs onto the application, if the number of days exceed the days the password is valid, a request for a change in the password will be displayed. This change must occur before proceeding with the application.

A dialog box titled "Change Password Required" with a blue header bar. The main area has a light gray background. At the top, a white text box contains the message: "Your password has expired. You MUST enter a new password to continue. Your password must be at least 8 characters and is valid for a maximum of 90 days. The password is case sensitive. You may not reuse your last 2 passwords. Be creative, but make it something you will remember." Below this, there are two input fields. The first is labeled "New Password:" and the second is labeled "Confirm New Password:". At the bottom right, there are two buttons: "Ok" and "Exit".

### **New Password**

This field provides for the capture of the user's new password. The password is required to be 8 to 16 characters.

### **Confirm New Password**

This field provides for the capture of the same password as entered into the New Password field. This provides for accuracy.

The following message will be displayed if the new password does not match the confirm new password.

A small error dialog box with a light gray background. It contains the text: "The new password and the confirm new password do not match. Please try again!" At the bottom center, there is a button labeled "OK".

When the OK is selected, the user may reenter the password.

The user may not use the same password that has been used twice previously. If a password is detected as being used as one of the last two passwords the following message will be displayed.

### 3. ADMINISTRATOR

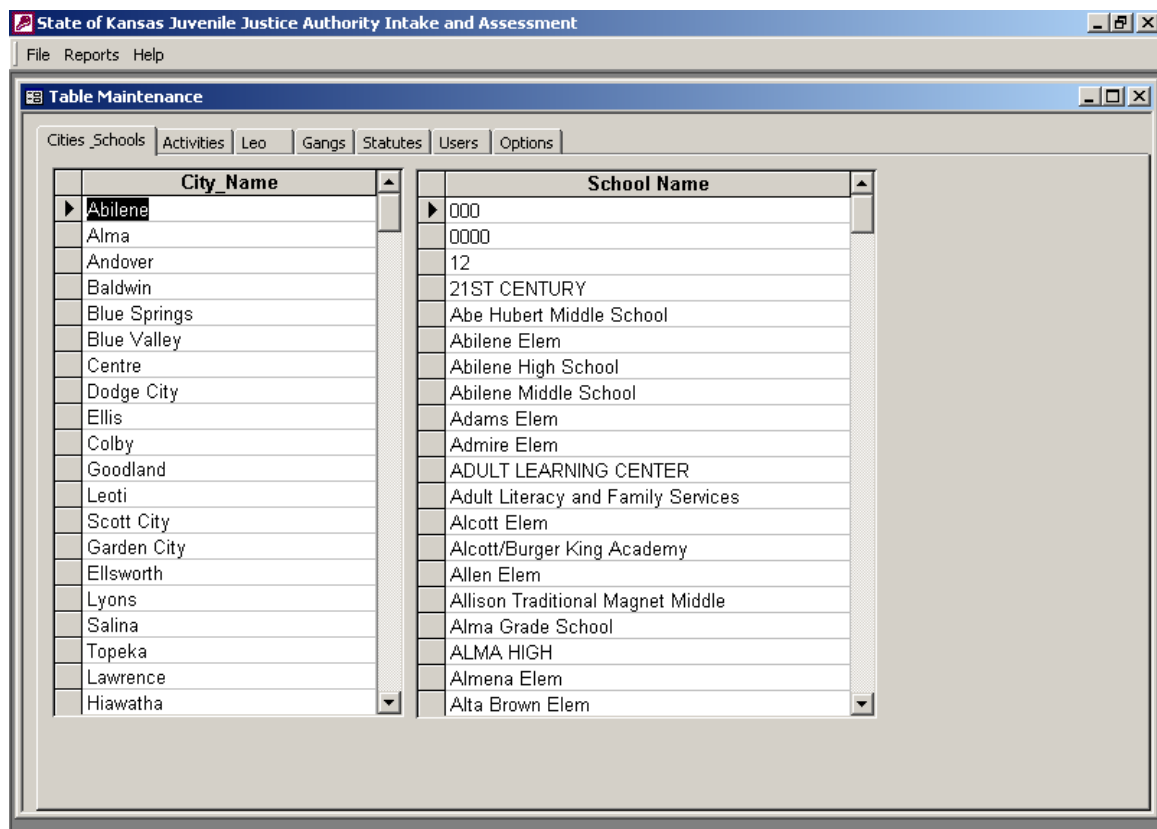

---

The administrator functions are responsible for the maintenance of user-controlled tables. These tables control the accepted and allowed data for selection on specific drop-down lists (as identified earlier in this document).

#### *TABLE MAINTENANCE*

---

The table maintenance is a simplified manner for maintaining the drop-down list selections. From here the user can customize their selections to fit their location.

#### *ADDING A NEW USER*

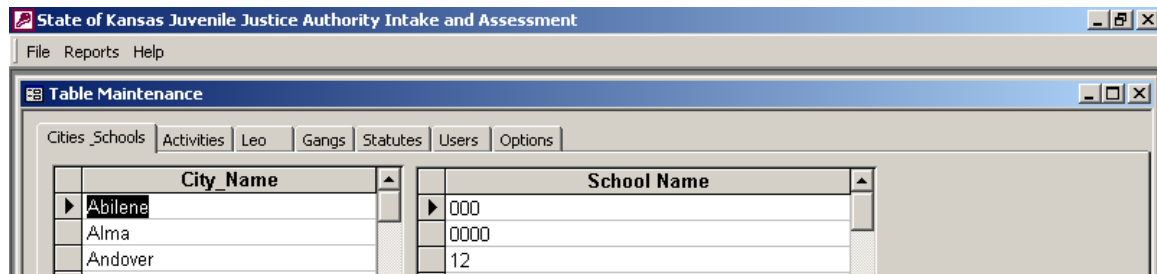

---

A major table required for early maintenance is the identification of the users that will have access to the application. The application supports multiple user access:

- Supervisor Can enter, modify, approve, and support table maintenance
- Entry Can enter, modify
- View Only Can view only (no entry or modifications)

- Administrator Supports table maintenance only

The Supervisor or Administrator will enter user's name, user identification (ID), their initial password, number of days the password is valid before requiring a change, and their access level. The application will not allow the use of the same password to be used three changes in a row. Enter the number of days the password will be valid until a change in passwords will be requested. This will allow the flexibility of setting the days to meet the user's office standards.

### User Name

This field provides for the capture of the user's name. Up to 30 characters may be entered.

### User ID

This field provides for the capture of the user's identification code. Up to 30 characters may be entered.

### Password

The user will maintain an 8 to 16 character password which, when used in conjunction of the user ID, provides access to the application.

### Days Valid

The number of days the password is valid. When the number of days expires, a message will appear requiring the entry of a new password.

Note: JJA requires this to be not more than 90 days

### User Level

The user level defines the access and processing capabilities of the user – valid selections are:

- Admin Only
- Entry/Edit/Supervisor
- View Only
- Entry/Edit/ No Supervisor
- Entry/No Edit

### OPTIONS

The options page allows the administrator or supervisor to identify the location where the import and export data sets are to be addressed.

The screenshot shows a window titled "Table Maintenance" with a blue header bar. Below the header is a row of tabs: "Cities\_Schools", "Activities", "Leo", "Gangs", "Statutes", "Users", and "Options". The "Options" tab is currently selected. The main area of the window contains several input fields and checkboxes:

- Default Import:** A text box containing "A:\\".
- Default Export:** A text box containing "A:\\".
- Picture Path:** An empty text box.
- Database Name:** A text box containing "District #02".
- Master DB:** A checked checkbox.
- Delete files after Imported:** An unchecked checkbox.

### **Default Import**

This field displays the source file location to import the intake. To change, type in the new address (e.g. to change to the A drive, type A – or type A: or type A:\, etc.)

### **Default Export**

This field displays the receiving file location to export the intake. To change, type in the new address (e.g. to change to the A drive, type A – or type A: or type A:\, etc.)

### **Database Name**

This field is a user-defined field to identify the source of import (e.g. laptop 1, laptop 2, etc.). This prevents duplicate intakes from being imported.

### **Picture Path**

This field is a user-defined field to identify folder where the pictures are stored.

### **Master DB**

This field is an indicator specifying if the computer is used as the master database. If it is a laptop this field will be left blank.

### **Delete files after Imported**

This indicator specifies that after the import of the intake is complete, the source file will be deleted.

## 4. NEW INTAKE

---

A new intake is initiated when the New Intake/Assessment button on the sign-on screen is selected.

The data pages will be displayed beginning with the Registration page. The event number will be the next sequential number relating to the intake. There are a number of pages involved with the capture of intake information. The minimum information required before the intake will be retained is the first and last name. The option of using the “Find Intake” may want to be considered as one of the first processes. It will identify if the youth has been through the intake process before and has a previous file. Selecting the youth and selecting the “Copy to Intake” function button will insert key information into the current intake. This will reduce the amount of data entry required by the intake worker allowing them to validate the previous information, correcting errors, and capturing additional information. The following present these pages and definitions of the data.

## 5. PAGE DESCRIPTIONS

The screens the intake worker uses to capture the youth's information are called pages. Reference in this document will be to either pages or tabs. The following pages are graphic representations of these pages (or tabs) along with the specific associated data requirements.

### **REGISTRATION**

The Registration page is the initial screen that identifies the intake worker, the date and time the intake occurred, the type of intake, and if the youth was considered a "Child In Need of Care" (or CINC) or if the youth was considered a youth offender. The event number is automatically incremented from the last intake. There are several fields that are filled in for the intake. The 1st Intake Worker field may be require change if the individual entering the information is not the intake worker.

The screenshot shows the 'Intake and Assessment Registration' window. At the top, there's a menu bar with 'File', 'Reports', and 'Help'. Below it, a toolbar contains buttons for 'Find JJIS ID', 'Update JJIS', 'Find Intake', and 'Finished'. The main form area has several input fields: 'Event Number' (1601), 'Last Accessed' (Supervisor, 8/15/2005 11:38:14 AM), 'JJIS ID', and 'SID / KBI Num'. A horizontal tab bar is visible with tabs for 'Registration', 'ID', 'Phys Char', 'Family', 'Household', 'Law', 'Prior', 'School', 'Sub Abuse', 'Mental', 'Special', 'CINC', 'Results', 'Screening', and 'Addendum'. The 'Registration' tab is active. Below the tabs, there are fields for 'Agency ORI' (District #02), 'Process Begin Date / Time' (8/15/2005 11:38 AM), 'Process End Date / Time' (8/15/2005), 'Approved By', 'Date Approved', 'Date Released To JJA', and 'Intake Printed and Sent To Courts Before Approval'. There are also dropdown menus for '1st Intake Worker' (Supervisor), '2nd Intake Worker', '3rd Intake Worker', 'Type of Intake', and 'Where Intake Took Place'. At the bottom, there are checkboxes for 'Juvenile Offender', 'Status Offender', and 'Non Offender'.

#### **Agency ORI**

This field displays the agency ORI if applicable

### 1st Intake Worker

Name of the intake worker that either executed the intake or, at a minimum, initiated the intake

### 2nd Intake Worker

Name of a second intake worker if applicable

### 3rd Intake Worker

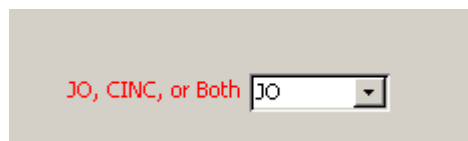

Name of a third intake worker if applicable

### Type of Intake

Identifies the type of intake – Valid codes with definitions are:

- |                            |   |
|----------------------------|---|
| • Appointment              | The youth had an appointment for the intake       |
| • Court Ordered Assessment | The court had issued an order for the assessment  |
| • Direct CINC Placement    |   |
| • Interviewed in detention | The youth was interviewed in a detention facility |
| • Police drop off          | The police dropped the youth off at the JIAC      |
| • Turned self in           | The youth turned their self in                    |
| • Walk in                  | The youth was brought by parent/guardian          |

For the intakes that occurred prior to this release, the types of intakes will be presented:

JO, CINC, or Both

### JO/CINC

Identifies if the youth is considered a juvenile offender, a child in need of care, or both – valid codes are:

- |           |  |
|-----------|--|
| • JO      | (Youth is alleged to be in the commission of a felony or misdemeanor, city/county, state/federal law violation)                  |
| • CINC    | Youth is suspected to have been/is being abused and/or neglected or non-juvenile offender behavior (e.g. truancy, runaway, etc.) |
| • JO/CINC | (Youth has multiple behavior or circumstances involving both JO and CINC)  |

The revised version will automatically mark the type of intake

Juvenile Offender: ☐ Status Offender: ☐ Non Offender: ☐

based on the information entered into the statute table. Every record must have a 38-1502.

As to the definitions in K.S.A. 38-1502, those categorized by the federal scheme as "non offenders" would be those defined in 38-1502(a)(1), (2), (3), (4), (5) & (11).

Those categorized by the federal scheme as "status offenders" are defined in 38-1502(a)(6),(7), (9), (10) & (12). Those categorized by the federal scheme as "offenders" are defined in 38-1502(a)(8).

### **38-1502. Definitions.**

(a) 'Child in need of care' means a person less than 18 years of age who:

- (1) Is without adequate parental care, control or subsistence and the condition is not due solely to the lack of financial means of the child's parents or other custodian;
- (2) Is without the care or control necessary for the child's physical, mental or emotional health;
- (3) Has been physically, mentally or emotionally abused or neglected or sexually abused;
- (4) Has been placed for care or adoption in violation of law;
- (5) Has been abandoned or does not have a known living parent;
- (6) Is not attending school as required by [k.s.a. 72-977](#) or [72-1111](#), and amendments thereto;
- (7) Except in the case of a violation of [K.S.A. 41-727](#), [subsection \(j\) of K.S.A. 74-8810](#) or subsection (m) or (n) of [K.S.A. 79-3321](#), and amendments thereto, or, except as provided in subsection (a)(12) of [K.S.A. 21-4204a](#) and amendments thereto, does an act which, when committed by a person under 18 years of age, is prohibited by state law, city ordinance or county resolution but which is not prohibited when done by an adult;
- (8) While less than 10 years of age, commits any act which if done by an adult would constitute the commission of a felony or misdemeanor as defined by [K.S.A. 21-3105](#) and amendments thereto;
- (9) Is willfully and voluntarily absent from the child's home without the consent of the child's parent or other custodian;
- (10) Is willfully and voluntarily absent at least a second time from a court ordered or designated placement, or a placement pursuant to court order, if the absence is without the consent of the person with whom the child is placed or, if the child is placed in a facility, without the consent of the person in charge of such facility or such person's designee;
- (11) Has been residing in the same residence with a sibling or another person under 18 years of age, who has been physically, mentally or emotionally abused or neglected, or sexually abused; or
- (12) While less than 10 years of age commits the offense defined in [k.s.a. 21-4204a](#) and amendments thereto.

### **Process Begin Date/Time**

Identifies the date and the time the intake was initiated – The date and time will be automatically entered when a new intake is requested. These may be overwritten to reflect a paper intake or other type of delayed entry of the intake.

**Process End Date/Time**

Identifies the date and the time the intake was completed – this information is associated with the same fields on the Results – Release/Referral page.

**Approved By**

The name of the supervisor that approved the intake

**Date Approval**

The date the supervisor approved the intake

**Date Released to JJA**

The date the supervisor updated the Juvenile Justice Central Office data warehouse

**Intake Printed Before Approval Indicator**

An indicator stating an intake summary was printed prior to having the intake complete and/or approved

## ID

The screenshot shows a web application window titled "State of Kansas Juvenile Justice Authority Intake and Assessment". The main content area is "Intake and Assessment Registration". It contains various input fields and buttons. At the top, there are buttons for "Find JJIS ID", "Update JJIS", "Get Connection", "Find Intake", and "Finished". Below these are fields for "Event Number", "Last Accessed" (showing "JJJA Super User" and "5/6/2005 9:19:39 AM"), and "JJIS ID" (showing "0000111203"). A row of tabs includes "Registration", "ID", "Phys Char", "Family", "Household", "Law", "Prior", "School", "Sub Abuse", "Mental", "Special", "CINC", "Results", "Screening", and "Addendum". The "Registration" tab is active, showing fields for "Name Last", "First", "Middle", "Suffix", and "SSN" (with a "No SSN" checkbox). Below these are "Address Line 1", "Address Line 2", "City/State/Zip+4", "Resident County", and "Phone". Further down are "DOB", "Current Age", "Age at Intake", "Street Type", "House/Bldg No", "Structure", "1st Direction", "Occ Code", "2nd Direction", "Occ Num", "Drivers License No", "Birthplace", "State Issued", "Current Citizenship", "Status", and "Previous Citizenship". A large box on the right contains the text "No Picture Available" in red. At the bottom right, there is a "Picture File Name" field and a "Get Picture" button.

### Last Name

The last name of the youth

### First Name

The first name of the youth

### Middle Name

The middle name of the youth. If the youth has none or refuses to provide, enter NMN for No Middle Name or NMI for No Middle Initial.

### Suffix Name

The suffix name of the youth (Jr., II, etc.)

### Juvenile SSN

The social security number of the youth – if the youth does not know their SSN or refuse to provide it, mark the No SSN box

### Address Line 1

The home street address of the youth

**No Address**

Indicate here if the youth refuses to provide an address

**Address Line 2**

A second home street address of the youth (if required)

**City**

The name of the city the youth's home address is located

**State**

The name of the state the youth's home address is located

**ZIP**

The zip code of the youth's home address

**Resident County**

The name of the county the youth's home address is located

**Phone**

The telephone number located at the youth's address – if there is no phone at the resident or the youth refuses to provide one, mark the No Phone box

**No Phone**

Indicate here if the youth has no phone or refuses to provide a phone number

**DOB**

The date of birth of the youth

**Current Age**

The age of the individual calculated based on date of birth (this can also be used to validate the age the youth provides)

**Age at Intake**

The age of the individual at the time the intake occurred

**Street Type**

Codes indicating the type of street of the youth's address is located – valid codes are:

- |           |             |              |           |
|-----------|-------------|--------------|-----------|
| • Avenue  | • Boulevard | • Circle     | • Court   |
| • Drive   | • Estate    | • Expressway | • Freeway |
| • Highway | • Junction  | • Lane       | • Landing |
| • Park    | • Parkway   | • Place      | • Plaza   |
| • Point   | • Ramp      | • Road       | • Square  |
| • Street  | • Terrace   | • Turnpike   | • Trail   |

- View
- Way
- Crossing

### **Direction**

The direction the street runs that is associated with the youth's street address – valid codes are:

- East
- North
- Northeast
- Northwest
- South
- Southeast
- Southwest
- West

### **Occupancy Code**

Describes the type of dwelling the youth provided as a home address – valid codes are:

- Apartment
- Suite
- Room
- Building
- Lot
- Site, space or stall

### **House/Building Number**

The house or building number of the home address provided by the youth

### **2nd Direction**

If the home address provided by the youth has a second street associated with it, identify the direction the second street runs – valid codes are:

- East
- North
- Northeast
- Northwest
- South
- Southeast
- Southwest
- West

### **Occupancy Number**

The number of an apartment, suite, etc. of the youth home building

### **Structure**

A suffix attached to a house number indicating some additional fraction to the house number

### **Driver's License Number**

The youth's driver's license number (if applicable)

### **State Issued**

The State the youth's driver's license was issued

### **Driver's License Status**

The status of the youth's driver's license – valid codes are:

- Current
- Expired
- Ref To Answer
- Suspended
- Unknown

**Birth Place**

The location of the youth's birth place

**Current Citizenship**

Current country of citizenship

**Previous Citizenship**

Previous country of citizenship (if applicable)

**Find Picture**

Provides a tree directory for pointing the application to the address the picture is stored. It is important to not move the picture, or if the picture is moved, to re-establish the location by again using this process

## PHYSICAL CHARACTERISTICS

The screenshot shows the 'Intake and Assessment Registration' window. The 'Phys Char' tab is selected. The form includes fields for Gender (Female), Height (5' 2"), Weight (135), Hair Color (Black), Eye Color (Hazel), Eye Wear (None), Complexion (Medium), Ethnicity (Nonhispanic), and Primary Race (White). There are also checkboxes for Multi Race (White, Black, American Indian, Asian, Hawaiian/Pacific Islander). A text area for 'Describe youth's physical condition including any medications which the youth is taking or should be taking.' contains the text 'No medications, illnesses or injuries.' Below this is a table with columns 'Mark Type', 'Description', and 'Gang Related'.

Mark Type	Description	Gang Related
Tattoo	Back of left hand	No

### Gender Code

The gender of the youth – valid selections are Male or Female

### Person Height Number

The Height of the youth in feet and inches (Reasonability check for over 9' 11" –

message displayed

### Person Weight Number

The weight of the youth captured in pounds (Reasonability check for over 499 pounds –

message displayed

**Person Disabilities**

Indication if the youth has a disability – valid codes are:

- No
- Unknown
- Refuse To Answer
- Yes

**Person Physical Problems**

Indication if the youth has a physical problem – valid codes are:

- No
- Unknown
- Refuse To Answer
- Yes

**Person Visual Problems**

Indication if the youth has a visual problem – valid codes are:

- No
- Unknown
- Refuse To Answer
- Yes

**Person Audio Problem**

Indication if the youth has an audio problem – valid codes are:

- No
- Unknown
- Refuse To Answer
- Yes

**Person Hair Color**

Youth's hair color – valid codes are:

- Black
- Blonde
- Blue
- Brown
- Green
- Grey
- Multi Colored
- Orange
- Purple
- Pink
- Red Auburn
- Sandy
- White
- Other

**Eye Color**

Eye colors of youth – valid codes are:

- Black
- Blue
- Brown
- Green
- Grey
- Hazel
- Maroon
- Multicolor
- Pink
- Other

**Eye Wear Code Description**

Identifies if the youth uses eyewear – valid codes are:

- Contacts – Color
- Contacts - clear
- Glasses
- None

**Complexion**

Skin complexion of the youth – valid codes are:

- Albino
- Black
- Dark
- Fair
- Light Brown
- Light
- Medium Brown
- Medium
- Olive
- Ruddy
- Sallow
- Yellow

**Ethnicity**

Ethnic group or minority – valid codes are:

- Hispanic US Citizen/Resident of Spanish/Latin American Descent
- Non-Hispanic Anyone that is not Hispanic
- Unknown Unable to determine

**Primary Race**

The youth's primary race code – valid codes are:

- Asian
- Black
- American Indian/Alaskan Native
- Hawaiian/pacific Islander
- Unknown
- White

**Multi-Race**

Identify all races that make the youth to be considered a multi-race. The race code associated with the primary race will be updated on the multi-race.

**Describe youth's physical condition**

Narrative describing the youth's physical condition – Include medication the youth is taking or should be taking – may include hair length, hair description (e.g., curly), and/or facial hair (e.g., beard, mustache, goatee) etc.

**Mark Type Code**

Identifies any physical body mark on the youth – valid codes are:

- Birth Mark
- Large Mole
- Piercing
- Scar
- Tattoo

**Description**

Brief description associated with a scars, marks, tattoos code

**Gang Related Mark**

Use only for known gang members. Indicate if there is a specific body mark designating a gang – valid codes are:

- No
- Refuse To Answer
- Unknown
- Yes

### **Youth Resides with Parent/Caregiver**

This indicator is marked if the youth resides with the individual specified

### **Parent/Caregiver Deceased**

Indicates if the person being identified is deceased

### **Address Line 1**

The home street address of the youth

### **Address Line 2**

A second home street address of the youth (if required)

### **City**

The name of the city the youth's home address is located

### **State**

The name of the state the youth's home address is located

### **ZIP**

The zip code of the youth's home address

### **Phone**

The telephone number located at the youth's address – if there is no phone at the resident or the youth refuses to provide one, mark the No Phone box

### **DOB**

The date of birth of the youth

### **Current Age**

The age of the individual calculated based on date of birth (this can also be used to validate the age the youth provides)

**Street Type**

Codes indicating the type of street of the youth's address is located – valid selections are:

- Avenue
- Drive
- Highway
- Park
- Point
- Street
- View
- Boulevard
- Estate
- Junction
- Parkway
- Ramp
- Terrace
- Way
- Circle
- Expressway

**Direction**

The direction the street runs that is associated with the youth's street address – valid selections are:

- East
- North
- Northeast
- Northwest
- South
- Southeast
- Southwest
- West

**Occupancy Code**

Describes the type of dwelling the youth provided as a home address – valid selections are:

- Apartment
- Suite
- Room
- Building
- Lot
- Site, space or stall

**House/Building Number**

The house or building number of the home address provided by the youth

**2nd Direction**

If the home address provided by the youth has a second street associated with it, identify the direction the second street runs – valid selections are:

- East
- North
- Northeast
- Northwest
- South
- Southeast
- Southwest
- West

**Occupancy Number**

The number of an apartment, suite, etc. of the youth home building

**Structure**

A suffix attached to a house number indicating some additional fraction to the house number<sup>8</sup>

**Ethnicity**

The individual's primary ethnic background – valid selections are:

- Hispanic
- Non-Hispanic
- Unknown

### **Race**

The individual's primary race code – valid selections are:

- Asian
- American Indian/Alaskan Native
- Unknown
- Black
- Hawaiian/pacific Islander
- White

### **Job Code**

Description of employment type – valid selections are:

- Disabled
- Retired
- Unknown
- Employed
- Self-Employed
- Volunteer
- Refuse To Answer
- Unemployed
- 

### **Job Status**

Employment Status – valid selections are:

- More Than 1 Job
- Previously Employed
- Unknown
- Full Time
- Part Time
- Never Employed
- Refuse To Answer

### **Job Type**

The classification of the job currently engaged – valid selections are:

- Agriculture Processing
- Construction Work
- Military
- Professional, technical, managerial
- Service Occupation
- Agriculture
- Machine Trade
- None
- Refuse To Answer
- Unknown
- Clerical & Sales
- Mechanics
- Other
- Student

### **Employer Name**

Place of employment by youth

### **Employer Phone**

Phone number where the youth can be reached while working

### **Copy Address From Youth**

Copies the address from the youth screen (ID Tab)

Family Primary Language English

Persons 18 YOA and Older in Household 1

Persons Under 18 YOA in Household 1

Family Narrative

Youth Resides With Mother

Household Income Source Mother's Employment

Other Income Source

Family Financial Status

### Primary Language

Record the primary language spoken in the home. If the language does not exist, type it in and the application will allow the addition of the language for future access.

### Persons 18 YOA and Older in Household

Record the numbers of people residing with the youth in the household that are 18 years of age and/or older – valid selections are:

- None
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10
- More Than 10
- Unknown
- Refuse To Answer

### Persons Under than 18 YOA in Household

Record the number of people residing with the youth in the household that are under 18 years of age – valid selections are:

- None
- 1
- 2
- 3
- 4
- 5
- 6
- 7

- 8
- Unknown
- 9
- Refuse To Answer
- 10
- More Than 10

### **Youth Resides With**

This provides an easy review of those that reside with the youth. The displays are those individuals that were flagged as residing with the youth on the Family Parent/Caregiver page. This field does not support data entry, provides a view only.

### **Household Income Source**

This indicates the source of the family / income. Pick as many as are required – valid selections are:

- Child Support
- SSI Death Benefits
- Father's Employment
- HealthWave
- Mother's Employment
- Other Adult's Employment
- Parent's Employment
- Student Loan
- Unknown
- Worker's Compensation
- TAF (Temporary Assistance to Families)
- SSI Disability Benefits
- Food Stamps
- Medicaid
- None
- Other Support
- Refuse To Answer
- Unemployment
- Veterans Benefits

### **Other Income Source**

Capture sources of income other than those identified under Household Income Source.

### **Family Financial Status**

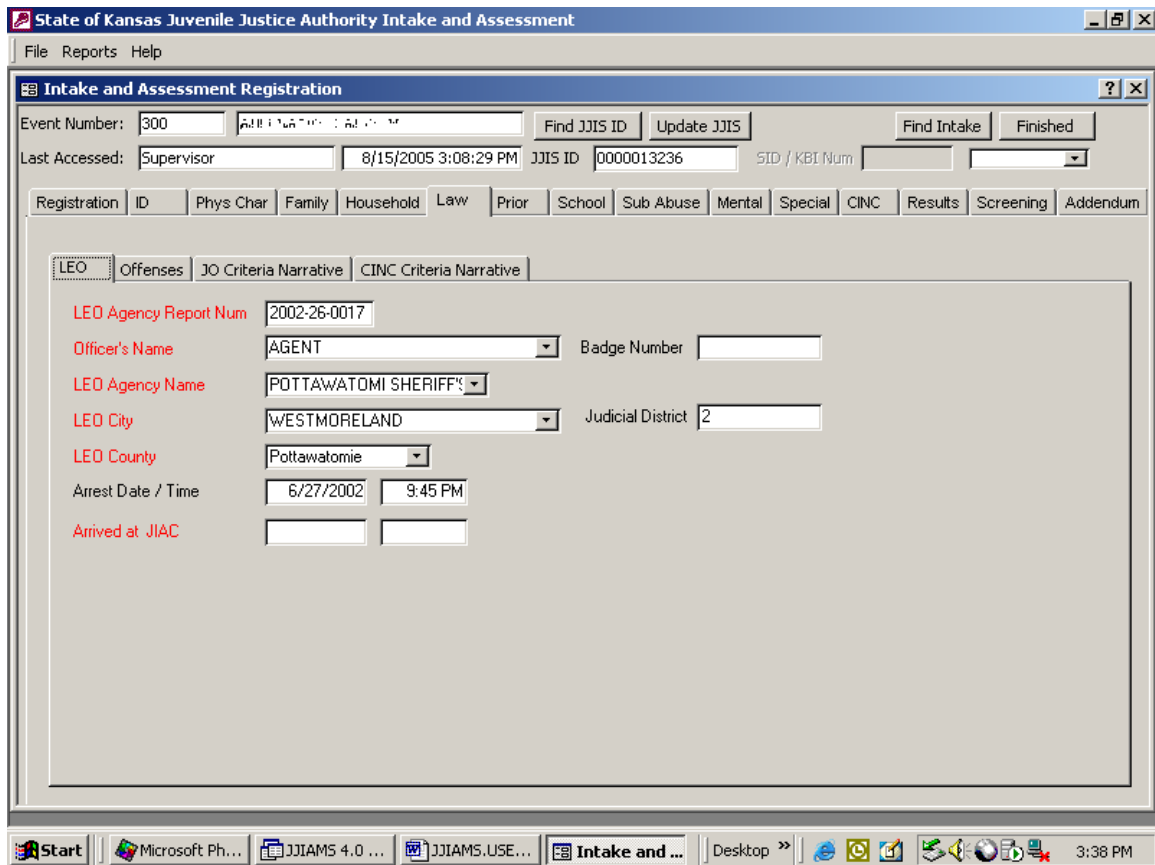

Identify the financial income of the family as an annual amount – valid selections are:

- 0 - 9,999
- 20,000 - 24,999
- 35,000 - 39,999
- 50,000 - 59,999
- None
- 10,000 - 14,999
- 25,000 - 29,999
- 40,000 - 44,999
- 60,000 - 69,999
- Refuse To Answer
- 15,000 - 19,999
- 30,000 - 34,999
- 45,000 - 49,999
- 70,000 & More
- Unknown

### **Family Narrative**

Intake workers summary of family information

## LAW - LEO

### LEO Agency Report Number

Report or case number from the law enforcement officer

### Officer's Name

Name of the officer who wrote the report

### Agency Name

The name of the law enforcement agency that performed the arrest and/or brought the child to the intake center

### Badge Number

Badge number of the officer (optional)

### LEO City

The name of the city the law enforcement agency is associated

### LEO County

The name of the county the law enforcement agency is associated

**Judicial District**

The Judicial District number the law enforcement agency is associated with

**Arrest Date / Time**

Date and time of arrest

**Arrived at JIAC**

The date and time the juvenile or child arrived at the intake center (this information is for performing analysis addressing the amount of time taken to address the intake)

LEO Offenses JO Criteria Narrative CINC Criteria Narrative

Offense Statute Line(s) must be complete for the Intake to be valid.

Statute Type	Statute	Statute Description	Counts
Misdemeanor	41-0727	Liquor; Purchase/consumption alcoholic liquor/CMB by minor	1

Statute Search

Firearm No Co-Respondents No Victim Injured No

Weapon No Presumption of Waiver? No Youth Fingerprinted No

### Statute Type

Type of law statute the youth is being charged with – Misdemeanor or Felony

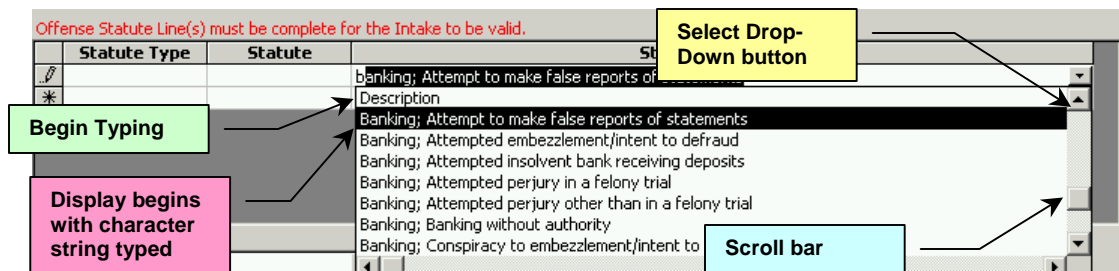

### Statute Number

The specific statute number of the law the youth is being charged. The Statute Description will be automatically filled in after the statute number is entered.

### Statute Description

The description of the specific statute number of the law the youth is being charged. The Statute Number will be automatically filled in after the statute description is entered. A partial entry of the first few characters will open the drop-down selection for quicker access.

As an example, begin by selecting the drop-down to display the description. Then enter the letter “b” and the display jumps to begin displaying a description that begins with the letter “b”. Continue typing to further filter. Once a letter is entered that does not meet the character set entered the display will begin back at the beginning. The user may scroll the drop-down anytime it is displayed.

Note: If an entry is started but a decision is then to delete the entry, place the cursor on the left box that shows an arrowhead and press the left-button on the mouse. This will highlight the entire line. Press the delete key to remove the entry.

### Counts

Indicate the number of counts associated with the offense

### Firearm

Indicate if the youth had a firearm in their possession at time of being taken into custody – valid codes are:

- No
- In Other Youth's Possession
- Yes
- Unable To Determine

### Weapon

Indicate if the youth had other weapons in their possession at time of being taken into custody – valid codes are:

- No
- In Other Youth's Possession
- Yes
- Unable To Determine

### Co-Respondents

Identify if there are co-respondents – valid codes are:

- No
- Yes
- Unknown

### Presumption of Waiver

Indicates if the youth will be processed as an adult – valid codes are:

- No
- Yes
- Unknown

### Victim Injured

Indicates if the victim was injured – valid codes are:

- No
- Yes
- Unknown

### **Fingerprinted**

Indicates if the youth's fingerprints were captured for a felony, A & B misdemeanor, or class C assault – valid codes are:

- No
- Yes
- Unknown

Note: The date of birth of the juvenile or youth will need to be entered prior to the selection of a statute. If the juvenile is over 10 years of age the statute 38-1502(a)(8) and if there are no other 38-1502 statutes selected either a misdemeanor and/or a felony will need to be selected.

For a child in need of care, select one of the following:

38-1502(a)(1) 'Child in need of care' means a person less than 18 years of age who is without adequate parental care, control or subsistence and the condition is not due solely to the lack of financial means of the child's parents or other custodian

38-1502(a)(2) 'Child in need of care' means a person less than 18 years of age who is without the care or control necessary for the child's physical, mental or emotional health

38-1502(a)(3) 'Child in need of care' means a person less than 18 years of age who has been physically, mentally or emotionally abused or neglected or sexually abused

38-1502(a)(4) 'Child in need of care' means a person less than 18 years of age who has been

38-1502(a)(5) 'Child in need of care' means a person less than 18 years of age who has been abandoned or does not have a known living parent

38-1502(a)(6) 'Child in need of care' means a person less than 18 years of age who is not attending school as required by K.S.A. 72-977 or 72-1111, and amendments thereto

38-1502(a)(7) 'Child in need of care' means a person less than 18 years of age who except in the case of a violation of K.S.A. 41-727, subsection (j) of K.S.A. 74-8810 or subsection (m) or (n) of K.S.A. 79-3321, and amendments thereto, or, except as provided in subsection (a)(12) of K.S.A. 21-4204a and amendments thereto, does an act which, when committed by a person under 18 years of age, is prohibited by state law, city ordinance or county resolution but which is not prohibited when done by an adult

38-1502(a)(8) 'Child in need of care' means a person less than 18 years of age who while less than 10 years of age, commits any act which if done by an adult would constitute the commission of a felony or misdemeanor as defined by K.S.A. 21-3105 and amendments thereto

38-1502(a)(9) 'Child in need of care' means a person less than 18 years of age who is willfully and voluntarily absent from the child's home without the consent of the child's parent or other custodian

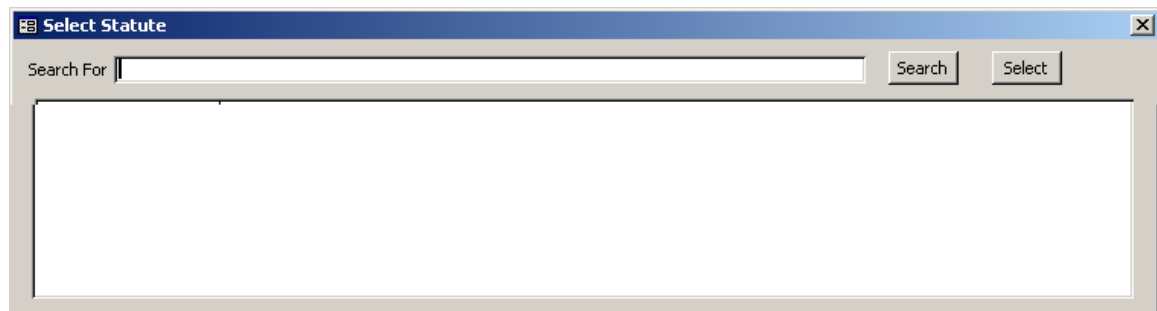

38-1502(a)(10) 'Child in need of care' means a person less than 18 years of age who is willfully and voluntarily absent at least a second time from a court ordered or designated placement, or a placement pursuant to court order, if the absence is without the consent of the person with whom the child is placed or, if the child is placed in a facility, without the consent of the person in charge of such facility or such person's designee

38-1502(a)(11) 'Child in need of care' means a person less than 18 years of age who has been residing in the same residence with a sibling or another person under 18 years of age, who has been physically, mentally or emotionally abused or neglected, or sexually abused

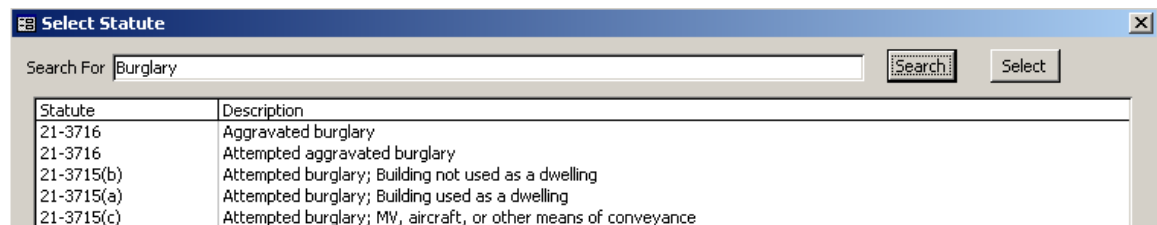

38-1502(a)(12) 'Child in need of care' means a person less than 18 years of age who while less than 10 years of age commits the offense defined in K.S.A. 21-4204a and amendments thereto

### Statute Search

This process can be used for searching for a specific statute that contains key-word(s). Initiate the process by selecting the button. This will display:

Select a key word for the statute searching for – select the Search button

Statute	Description
21-3716	Aggravated burglary
21-3716	Attempted aggravated burglary
21-3715(b)	Attempted burglary; Building not used as a dwelling
21-3715(a)	Attempted burglary; Building used as a dwelling
21-3715(c)	Attempted burglary; MV, aircraft, or other means of conveyance

Select the desired statute – position the cursor on the line and click the left mouse button – this will highlight the statute – then select the Select button to place the statute as the offense.

Note: Use Statute 38-1666 for probation violation – Offender status

## LAW – JO CRITERIA NARRATIVE

This tab becomes required if the statute selected identifies an offense as an offender

### LEO Custody Criteria

Criteria or reason the youth was taken into custody – valid reasons are:

- Absent from home without consent
- LEO/CSO possesses a court order
- Caregiver refuses custody
- Other
- LEO believes youth to be a CINC and leaving youth at residence would bring harm
- LEO/CSO believes a court order exists
- LEO has probable cause to believe youth a missing person from another state

### Criteria for Detainment (Applies only if placed in detention)

Criteria or reason the youth was detained – valid reasons are:

- |  |   |
|--|---|
| <ul style="list-style-type: none"> <li>• Awaiting Court On Felony</li> </ul> | <p>The youth is awaiting court action on another offense which if committed by an adult would</p> |
|--|---|

	constitute a felony
<ul style="list-style-type: none"> <li>• Adj One Or More Felony Offenses</li> </ul>	The youth has a record of adjudication or conviction of one or more offenses which if committed by an adult would constitute felonies
<ul style="list-style-type: none"> <li>• Arrested For Serious Felony</li> </ul>	The youth is alleged to have committed an offense which if committed by an adult would constitute a class A, B or C felony if committed prior to July 1, 1993, or would constitute an off grid felony, a nondrug severity level 1,2,3,4,5,6, or 7 felony or drug level 1,2 or 3 felony if committed on or after July 1, 1993, or would constitute a crime described in article 35 of chapter 21 of the Kansas Statutes Annotated.
<ul style="list-style-type: none"> <li>• Exhibited Assaultive/destructive Behavior</li> </ul>	The youth exhibited seriously assaultive or destructive behavior at the time of being taken into custody and continued such behavior after taken into custody.
<ul style="list-style-type: none"> <li>• Exhibited Self-destructive Behavior And Behavior Continued</li> </ul>	The youth exhibited self-destructive behavior at the time of being taken into custody and continued such behavior after taken into custody.
<ul style="list-style-type: none"> <li>• Expelled From Non-secured Facility On Current Offense</li> </ul>	The youth is a juvenile offender who has been expelled from placement in a nonsecure facility as a result of the current alleged offense
<ul style="list-style-type: none"> <li>• Fugitive</li> </ul>	There is oral or written verification that the youth is a fugitive sought for an offense in another jurisdiction or that the youth is currently an escapee from a juvenile detention facility
<ul style="list-style-type: none"> <li>• History Of Violent Behavior</li> </ul>	The youth has a history of violent behavior toward others
<ul style="list-style-type: none"> <li>• Not Detained</li> </ul>	Released to parent, guardian, other
<ul style="list-style-type: none"> <li>• Other Including Local Criteria</li> </ul>	The youth has been arrested by any court services officer or juvenile community correction officer pursuant to subsection (b) of K.S.A 38-1624 and amendments thereto.
<ul style="list-style-type: none"> <li>• Record Of FTA Probable Cause</li> </ul>	The youth has a record of failure to appear in court or there is a probable cause to believe that the youth will flee the jurisdiction of the court

- Post Hs
- Not Applicable

### **Enrolled**

Identifies the status of youth's attendance with school – valid selections are:

- Dropout
- Summer Break
- No
- Unknown
- Refuse To Answer
- Yes

### **Not Enrolled**

The youth is not currently enrolled and last attended Jr. High/ Middle School – valid codes are:

- No
- Unknown
- Refuse To Answer
- Yes

### **GED Status**

Identify if the youth is involved with GED – valid codes are:

- Completed
- Refuse To Answer
- In Progress
- Unknown
- Not Applicable

### **Expelled/Suspended**

Identify if the youth has been expelled and/or suspended – valid codes are:

- Current & Previous
- Previous
- Current
- Refuse To Answer
- Never
- Unknown

### **Attendance Problems**

Identify if the youth has school attendance problems – valid codes are:

- Current & Previous
- Previous
- Current
- Refuse To Answer
- Never
- Unknown

### **Truancy Petition Filed**

Indicate if a petition due to truancy has been filed – valid codes are:

- No
- Unknown
- Refuse To Answer
- Yes

### **Active IEP Code**

Identify all Individualized Education Plan Codes (all that apply) – valid selections are:

- Behavior Disorder
- Learning Disabled
- Gifted
- Mental
- Hearing Impaired
- None

- Other
- Early Childhood Special Education
- Visual Impairment
- Retardation
- Refuse To Answer
- Traumatic Brain Injury
- Speech/language
- Unknown

**School Issue Narrative**

Provide a narrative of school issues the youth has (i.e. suspensions, expulsions, truancy, etc.)

## SUBSTANCE ABUSE - USAGE

### Substance Name

The name of substance the youth has used - valid selections are:

- Alcohol
- Heroin
- Marijuana
- Other Drugs  
(e.g. MPTP,  
Chrome White)
- Psychoactive
- Prescription  
Tranquilizers
- Cigarettes
- Ecstasy
- Methamphetamines
- Other  
Hallucinogens (e.g.  
Psilocybin, DMT,  
etc.)
- Prescription  
Analgesics
- Smokeless  
Tobacco
- Cocaine
- Inhalants
- Mushrooms
- Pain Killers
- Prescription  
Sedatives
- Steroids
- Crack
- Lsd
- Opium
- PCP
- Prescription  
Stimulants
- WET

Note: Alcohol, Cigarettes, and Marijuana are required to be answered. If the usage is never, the remaining fields are filled in as Never – otherwise the remaining fields will be required to be entered

### **Usage**

Indicates the type of usage the youth is using the substance – valid codes are:

- Current User
- Former User
- Never
- Refuse To Answer
- Tried It
- Unknown

### **Recency**

Identifies how recent the youth has taken the substance - valid selections are:

- Previous 24 Hours
- Previous Two Week
- Previous Three Month
- Previous 48 Hours
- Previous Six Month
- Never
- Previous Month
- Previous Week
- Previous Year
- Refuse To Answer
- Unknown
- Greater Than One Year

### **Age 1<sup>st</sup> Use**

Identifies the age the youth was when they first used a substance - valid selections are:

- 0 to 8
- 9 To 11
- 13
- 14
- 15
- 16
- 18
- Refuse To Answer
- Unknown

### **Lifetime Usage**

Identify the youth's lifetime usage of the substance - valid selections are:

- 1 Or 2 Xs
- 3 To 5 Xs
- 6 To 10 Xs
- 11 To 49 Xs
- 50 To 99 Xs
- 100 To 199 Xs
- 200 To More Xs
- Never
- Refuse To Answer
- Unknown

### **Has Used Drugs Intravenously**

Indicates if the youth has used drugs intravenously – valid codes are:

- No
- Refuse To Answer
- Unknown
- Yes

### **Shared IV Drug Materials with Others**

Indicates if the youth has shared needles – valid codes are:

- No
- Refuse To Answer
- Unknown
- Yes

### **Refused to Answer Drug/Alcohol Questions**

Indicates yes or no if the youth refused to answer drug and alcohol questions

- Unknown

### **Reasons for Treatment Referral**

Reasons for the substance abuse treatment referral - valid selections are:

- Alcohol Related Crime
- DUI
- Not Applicable
- Self Referred
- Court Referred
- Family Referred
- Other Referred
- Unknown
- Drug Related Crime
- Use At Home
- Use At School

### **Agency Name**

Substance abuse treatment agency name the youth was involved with

### **County**

The county the substance abuse treatment agency resides

### **Counselor Name**

The name of the counselor at the substance abuse treatment center

### **Counselor Phone**

The phone number of the counselor at the substance abuse treatment center

## ***SUBSTANCE ABUSE - NARRATIVE***

### **Substance Abuse Narrative**

A narrative describing relevant issues regarding the youth substance abuse

## MENTAL

### Mental Health Treatment History

Indicates if the youth has a Mental Health treatment history- valid codes are:

- Current & Previous
- Previous
- Current
- Refuse To Answer
- Never
- Unknown

### Inpatient

Indicates the status of the youth as a Mental Health inpatient - valid codes are:

- Current & Previous
- Previous
- Current
- Refuse To Answer
- Never
- Unknown

### Outpatient

Indicates the status of the youth as an outpatient - valid codes are:

- Current & Previous
- Previous
- Current
- Refuse To Answer
- Never
- Unknown

### **Parents Undergone Mental Health Treatment**

Indicates if the parents have undergone Mental Health treatment - valid codes are:

- Current & Previous
- Previous
- Current
- Refuse To Answer
- Never
- Unknown

### **Siblings Undergone Mental Health Treatment**

Indicates if the siblings have undergone Mental Health treatment - valid codes are:

- Current & Previous
- Previous
- Current
- Refuse To Answer
- Never
- Unknown

### **Reasons for Treatment Referral**

Reasons for the Mental Health treatment referral - valid codes are:

- Court Referred
- Not Applicable
- Psychological Evaluation
- Self Referred
- Eating Disorder
- Other Referred
- Suicide Attempt
- Unknown
- Family Issues
- Other
- School Issues

### **Agency Name**

Mental Health treatment agency name the youth was involved with

### **County**

The county the Mental Health treatment agency resides

### **Counselor Name**

The name of the counselor at the Mental Health treatment center

### **Counselor Phone**

The phone number of the counselor at the Mental Health treatment center

### **Mental Health Narrative**

A narrative describing relevant issues regarding the youth substance abuse

## ***SPECIAL - CONDITIONS***

### **Youth Require Medical Attention**

Indicate yes or no if the youth requires medical attention

### **Medical Release**

A yes or no indication there is a signed medical release form

### **Marital Status**

Indicator showing the youth's marital status – valid selections are:

- Single
- Married
- Divorced
- Separated
- Widow(er)
- Unknown

### **Youth Pregnant**

Identifies if the youth is pregnant (female only) – valid codes are:

- No
- Refuse To Answer
- Unknown
- Yes

### Number of Dependents

Identifies the number of dependents for the youth – valid selections are:

- 1
- 2
- 3
- 4
- More Than 4
- Refuse To Answer
- Unknown

### Dependents Reside with Youth

If applicable, location of residency of youth's dependents – valid codes are:

• Not Applicable	(Youth has no dependents)
• Yes	(Dependents live with the youth)
• No	(Dependents live elsewhere)
• Unknown	(Unknown if youth has dependents)
• Refuse To Answer	(Youth would not give an answer)

### Oldest Dependent

Identifies the age of the oldest youth's dependent – valid selections are:

- Not Applicable
- Birth – 1
- 1 YOA+
- 2 YOA+
- 3 YOA+
- 4 YOA+
- 5 YOA+
- 6 YOA+
- More Than 6 YOA
- Unknown
- Refuse To Answer
- 

### Youngest Dependent

Identifies the age of the youngest youth's dependent – valid selections are:

- Not Applicable
- Birth – 1
- 1 YOA+
- 2 YOA+
- 3 YOA+
- 4 YOA+
- 5 YOA+
- 6 YOA+
- More Than 6 YOA
- Unknown
- Refuse To Answer
- 

### Youths Physical Condition

Narrative for describing the youth's physical condition – include medications the youth is currently taking or should be taking

## ***SPECIAL - ACTIVITIES***

### **Job Status**

Identifies the youth's job status – valid selections are:

- More Than 1 Job
- Previously Employed
- Unknown
- Full Time
- Part Time
- Never Employed
- Refuse To Answer

### **Employment Code**

Identifies the age of the youngest youth's dependent – valid selections are:

- Disabled
- Retired
- Unknown
- Employed
- Self-Employed
- Volunteer
- Refuse To Answer
- Unemployed

### **Regular Activities**

Identifies the activities the youth are involved with. Add new ones if not on the drop-down selection table – valid selections are:

- Boys / Girls Club
- Church Groups

- Music / Theatre / Dance
- Other
- School Clubs
- Student Government
- None
- Refuse To Answer
- Scouting
- Sports

### **Other Activities**

Short narrative description of other activities the youth is involved with

### **Employer Name**

Identifies the name of the youth's employer

### **Job Type**

Identifies category that best defines the youth's type of job – valid selections are:

- Agriculture Processing
- Clerical & Sales
- Machine Trade
- Military
- Other
- Refuse To Answer
- Service Occupation
- Agriculture
- Construction Work
- Mechanics
- None
- Professional, technical, managerial
- Student
- Unknown

### **Gang Name<sup>1</sup>**

Use only for known gang members. Identifies the name of the gang the youth's is involved with. Add a new one if the name does not appear on the drop-down selection list.

### **Gang Set<sup>1</sup>**

Use only for known gang members. Identifies the gang set the youth's is involved with. Add a new one if the gang set does not appear on the drop-down selection list.

### **Gang Moniker<sup>1</sup>**

Use only for known gang members. Identifies the moniker used by the gang the youth is involved with. Add a new one if the gang moniker does not appear on the drop-down selection list.

Note: If an entry is started but a decision is then to delete the entry, place the cursor on the left box that shows an arrowhead and press the left-button on the mouse. This will highlight the entire line. Press the delete key to remove the entry.

### **Narrative of Activities**

This will provide an overall narrative of the youth's activities and his participation. It will also supplement information already identified.

---

<sup>1</sup> Fields only required if gang affiliation is entered

JO History Narrative (describe characteristics relevant)

### **First Referral of JO at Age 14 or Younger**

Indicates if the first referral of the youth was at age 14 or younger – valid codes are:

- No
- Unknown
- Refuse To Answer
- Yes

### **More than 3 Adjudications**

Indicates if the youth has more than 3 adjudications – valid codes are:

- No
- Unknown
- Refuse To Answer
- Yes

### **Prior Adjud (Adjudication) Resulting in Out-of-home Placement**

Indicates if the prior adjudications resulted in out-of-home placement – valid codes are:

- No
- Unknown
- Refuse To Answer
- Yes

### **History of Out-of-Home Placements**

Indicates if the youth has a history of being placed outside of the home – valid codes are:

- Current & Previous
- Previous
- Current
- Refuse To Answer
- Never
- Unknown

### **Number of out of home placements**

Provide the number of out-of-home placements the youth has had. Include relative placements if other than parents. Count each event separately

### **More than 2 Probations**

Indicates if the youth has more than 2 probations – valid codes are:

- No
- Unknown
- Refuse To Answer
- Yes

### **Family Members with Criminal History**

Indicates if the youth has a family member with a criminal history – valid codes are:

- No
- Unknown
- Refuse To Answer
- Yes

### **Siblings with Active or Previous CINC**

Indicates if the youth's siblings are now actively a CINC or previously a CINC – valid codes are:

- No
- Unknown
- Refuse To Answer
- Yes

### **Present Runaway Status**

Indicates if the youth is presently, or has been, a runaway – valid codes are:

- Current & Previous
- Previous
- Current
- Refuse To Answer
- Never
- Unknown

### **Runaway Frequency**

Indicate the frequency the youth has runaway

- 1 – 3 Times
- 4 – 10 Times
- More than 10 Times
- Refuse To Answer
- Never
- Unknown

### **Runaway History**

Indicate the locations the youth has runaway from – valid codes are:

- Never
- Home
- Non-Secure Placement
- Secure Placement
- Refuse To Answer
- Unknown

**JO History Narrative**

Provide a narrative of the youth (describe characteristics relevant)

If the user selects JO on the Registration page, then the fields on the CINC page will be automatically filled in as Not Applicable (as shown in this example). If the user selects CINC on the Registration page then the fields on the Law-Offences will be marked as No

### Age of Child Used as a Placement Factor

Indicate if the age of child is known – valid codes are:

- Not Applicable
- Unknown
- Yes
- No

### Medical Needs of Child

Identify if there are medical needs of the youth – valid codes are:

- Not Applicable
- Unknown
- Yes
- No

### Childs Ability to Protect Self

Identify if the youth has the ability to protect self – valid codes are:

- Not Applicable
- Yes

- Unknown
- No

### **Caregiver's Ability to Protect**

Identify if the caregiver has the ability to protect the youth – valid codes are:

- Not Applicable
- Unknown
- Yes
- No

### **Perpetrator's Access to Child**

Indicate if perpetrator has access to the youth – valid codes are:

- Not Applicable
- Unknown
- Yes
- No

### **Caregiver's Physical/Mental Condition**

Indicate if the caregiver's has a physical and/or mental condition – valid codes are:

- Not Applicable
- Unknown
- Yes
- No

### **Siblings Primary Victim(s)**

Indicate if the siblings are/were primary victim(s) – valid codes are:

- Not Applicable
- Unknown
- Yes
- No

### **Caregiver's Availability**

Indicate if the caregiver's is available – valid codes are:

- Not Applicable
- Unknown
- Yes
- No

### **Location of Injury**

Indicated if the location of the injury is known – valid codes are:

- Not Applicable
- Unknown
- Yes
- No

### **Seriousness of Incident**

Indicate if the incident is known to be serious – valid codes are:

- Not Applicable
- Unknown
- Yes
- No

### **Recency of Injury**

Indicate if the injury is recent – valid codes are:

- Not Applicable
- Unknown
- Yes
- No

### **Current Condition / Behavior of Child**

Indicate if the current condition / behavior of child is known – valid codes are:

- Not Applicable
- Unknown
- Yes
- No

### **Action Needed to Protect Child From Further Harm**

Indicate if there is action that is needed to protect the youth from further harm – valid codes are:

- Not Applicable
- Unknown
- Yes
- No

### **Action Needed to Preserve Evidence**

Indicate if there is action needed to preserve evidence – valid codes are:

- Not Applicable
- Unknown
- Yes
- No

### **Prior Involvement with SRS**

Indicate if there was prior involvement with SRS – valid codes are:

- Not Applicable
- Unknown
- Yes
- No

### **CINC Placement Narrative**

Provide a narrative regarding a CINC Placement (explain factors considered in placement and referral decisions)

## RESULTS – RELEASE / REFERRALS

### Process End Date/Time

Date the intake was completed

### Process End Time

Time the intake was completed

### Youth Refused to Answer Questions

Answer yes or no if the youth refused to answer the questions

### Authority for Release

Indicate the authority authorizing the release of the youth

### Family Accepts Referrals

Answer yes or no if the family accepts referrals

### Responsibility for Transport

Identify who is responsible for transporting the youth – valid selections are:

- Parents
- Intake Worker

- LEO
- Private
- Agency

### **Would Follow-up or Case Mgmt Assist Family to Access Referrals**

Would Follow-up or Case Mgmt Assist Family to Access Referrals – valid codes are:

- No
- Unknown
- Yes - Case Management
- Yes - Follow Up

### **Placement Outcome**

Identify with whom the youth was placed – valid selections are:

- Attendant Care
- Detention
- Foster Care
- Friend
- Group Home Resident Center
- House Arrest
- Other
- Parent(s) / Guardian(s)
- Relative
- Self
- Shelter Facility
- SRS
- Juvenile Correctional Facility
- Emergency Shelter

### **Released Back to Agency**

Check box indicating the juvenile is being released back to the agency which had responsibility of the juvenile

### **Person Youth Released To**

Provide the name of the individual/agency with whom the youth was released

### **Person Youth Released To Address**

Provide the address for the name of individual/agency with whom the youth was released

### **Person Youth Released To City**

Provide the city of the name of individual/agency with whom the youth was released

### **Person Youth Released To State**

Provide the state of the name of individual/agency with whom the youth was released

### **Person Youth Released To Zip**

Provide the Zip of the name of individual/agency with whom the youth was released

### **Person Youth Released To Phone**

Provide the phone number of the name of individual/agency with whom the youth was released

### **Find Previous**

Selection of the Find Previous button displays a listing of previous placements that have been made. Select the previous placement and then select the Copy to Intake – this will copy the previous information to the entry screen. To facilitate the search enter the name or partial name. The Cancel button will return the user back to the previous screen.

**Find Previous Release**

Name

William	William	William	KS	6th	(785) 444-4444
---------	---------	---------	----	-----	----------------

### Services provided in this process

Identify all of the services provided in this process – valid selections are:

- Court Process Information
- Crisis Intervention
- Intake Questionnaire
- Not Applicable
- Other
- Placement
- Posit
- Referral

### Services Referred

Identify the services that are being referred – valid selections are:

- Aggression Delinquency
- Education Assessment
- Inpatient Drug Alcohol Treatment
- None
- Other
- Sexual Abuse Victim
- Social Skills
- CASA / CRB
- Family Relations
- Inpatient Mental Health
- Outpatient Drug Alcohol Treatment
- Physical Abuse Victim
- Sex Offender
- Vocational Status
- Drug / Alcohol Detox
- Gang Intervention
- Leisure / Recreation
- Outpatient Mental Health
- Peer Relations
- SRS

### Available

Indicates yes or no if the service is available

### Method Payment

Identify the method of payment for the services – valid selections are:

- Medical Card
- Private Health Insurance
- SSA Recipient
- No Referral
- Private Savings
- SSI Recipient
- Other
- Refuse To Answer
- Unknown

### **Secure Custody**

Indicator identifying the juvenile as being brought to the JIAC in secure custody or placed in secure custody while at the JIAC

- Yes
- No

### **Non-Secured Custody**

If the selection of Secure Custody is selected as No, the selection of the type of non-secured is required

- Handcuff to Self
- Staff Supervisor
- Unlocked Room

### **Secured Custody**

If the selection of Secure Custody is selected as Yes, the selection of the type of custody is required

- Locked Room
- Locked Building – Egress not Possible on Own
- Cuffed to a Stationary Object

### **Reason Secured**

If the selection of Secure Custody is selected as Yes, the selection of the reason for custody is required

- Court Ordered
- Run Risk
- Danger to Self/Others

### **Time Into Secured Custody**

Enter the time of day the juvenile was secured custody - Time entered secure custody could begin during the intake process (for example: behavior changes and secured to a handrail during the intake) or prior to the beginning of the intake process by the JIAS staff (example: police take to detention center and JIAS staff arrive to do intake :30 minutes later)

### **Time Out of Secured Custody**

Enter the time of day the juvenile was removed from secured custody - Time entered secure custody could begin during the intake process (for example: behavior changes and secured to a handrail during the intake) or prior to the beginning of the intake process by the JIAS staff (example: police take to detention center and JIAS staff arrive to do intake :30 minutes later) - Time of secured custody could be before the completion of the intake (example: behavior changes and no longer secured to a handrail) or ends at the time JIAS staff have completed the intake process.

Note: An unlocked room in a secured building (example law enforcement center, detention center, etc) counts as secured custody

Note: This information is used for analysis and to ensure juveniles are being addressed as stated by State Statutes.

Note: Start of secure custody should be the time the secure custody actually started (as we say in the added language to the manual) even if the JIAS is done later. In the 3rd (and probably others) where detention in the county is detained, for example, at 2:00 AM in the morning and intake starts at 10:00 AM that same day. Reasoning is this provide data that shows when the secure custody really started even if JIAS done later. The theory being that JIAS could only determine that secure custody was not needed (or in appropriate) once that intake is done and completed. Often for detention the JIAS probably will make no different recommendation to the law enforcement officer, but only at the end of the JIAS would that be an option.<sup>2</sup>

<sup>2</sup> Randy Bowman – 10/11/05

## RESULTS – RISKS

### Does Emergency Exist Requiring Placement

Identify if an emergency exists – valid codes are:

- No
- Yes
- Unknown

### Estimate Time to Arrange Emergency Placement

Total time taken for emergency placement – valid selections are:

- Not Applicable
- Less Than 15 Minutes
- 15 - 30 Minutes
- 31 - 60 Minutes
- 1 - 1.5 Hours
- 1.5 - 2 Hours
- 2 - 3 Hours
- 3 - 5 Hours
- Greater Than 5 Hours

### Estimate Time to Transport to Emergency Placement

Total time taken to transport youth to placement – valid selections are:

- Not Applicable
- 31 - 60 Minutes
- 2 - 3 Hours

- Less Than 15 Minutes
- 1 - 1.5 Hours
- 3 - 5 Hours
- 15 - 30 Minutes
- 1.5 - 2 Hours
- Greater Than 5 Hours

### **Estimate Number of Round Trip Miles to Emergency Placement**

Total miles to and from a placement

### **Risk for Abuse**

Identify if there are risks for abuse to the youth, and if so, where – valid selections are:

- Abuse In The Home
- Mental Health Institutionalization
- Out Of Home Placement
- JO Institutionalization
- No
- Unable To Determine

### **Risk to Run from Placement**

Identify if the youth is at risk to run from the placement – valid codes are:

- No
- Yes
- Unknown

### **Risk to Harm Self**

Identify if the youth is at risk to harm self – valid codes are:

- No
- Yes
- Unknown

### **Risk to Harm Others**

Identify if the youth is at risk to harm others – valid codes are:

- No
- Yes
- Unknown

MAYSI ANSWERS MAYSI TOTALS POSIT ANSWERS POSIT TOTALS

MAYSI Date Taken or Declined 5/3/2005 ☐ Youth Declined to take MAYSI

Category	Score	Caution	Cut-Off	Invalid	Risk Factor Questions
Alcohol / Drug Use	0	4 to 6	8		
Angry - Irritable	0	5 to 7	9		
Depressed - Anxious	0	3 to 5	9		
Somatic Complaints	0	3 to 5	6		
Suicide Ideation	0	2	5		
Thought Distrib. (Boys)	0	1	5		
Traumatic Experiences	0	0	5		

The MAYSI-II categories are highlighted in **Blue** if the amount of yes answers are in the Caution range, and **Red** if the score exceeds the caution level. This is one of the two only fields where the red is not an indication that the field is required. The MAYSI-II Date taken is required, and if the youth refuses to take the MAYSI-II, the Youth Declined to take MAYSI-II should be marked along with the date

Scores for MAYSI-II scales are the number of “yes” responses circled by the your for that scale. This is true even if the youth has not answered all of the items on a scale; items with neither Y nor N checked are treated as a “no” response. No score can be given for a scale, however, if a certain number of items have been left unanswered:

For scales with 8 –9 items, more than two unanswered.  
For scales with 5-6 items, more than one unanswered.

Users should remember that the “Thought Disturbance” scale is to be used with male offenders only. The section should be grayed out when the offender is female.

**MAYSI Date Taken or Declined**

Indicator signifying the youth accepted or declined to take the MAYSI. Either the Date Taken or the Declined indicator is required.

**Youth Declined to take MAYSI-2**

Indicator signifying the youth declined to take the MAYSI-2.

**Category**

The MAYSI functional areas. .

**Score**

The score based on the yes entries from the MAYSI ANSWERS page

**Caution**

The amount of questions answered “yes” in this functional area are high, but not at the warning level

**Cut-Off**

The minimum or cut-off score

**Risk Factor Questions**

The questions that were answered yes related to the functional area that are red flag designate.

Score Now Uncheck All Check All

The Problem Oriented Screening Instrument for Teenagers (POSIT) was designed by the National Institute on Drug Abuse and is used to identify problems requiring an in-depth assessment and potentially a need for treatment. It is a screening tool with a target population of adolescents 12 through 19 years of age. The POSIT consists of 139 yes/no questions that relate to 10 functional areas. It is a self-report questionnaire designed to identify problems and the potential need for service in these functional areas: substance use/abuse, physical health, mental health, family relationships, peer relationships, educational status (i.e., learning disorders), vocational status, social skills, leisure and recreation, and aggressive behavior/delinquency.

For each yes answer that was recorded on the POSIT, place the cursor on the box relative to the question and left-click the mouse. This will mark the box with a checkmark. Each checkmark is then considered to be a “yes” answer. An example is:

MAYSI ANSWERS		MAYSI TOTALS		POSIT ANSWERS		POSIT TOTALS	
<b>Page 1</b>		<b>Page2</b>		<b>Page3</b>		<b>Page 4</b>	
Question Number		20	<input type="checkbox"/>	38	<input type="checkbox"/>	57	<input type="checkbox"/>
		21	<input type="checkbox"/>	39	<input type="checkbox"/>	58	<input type="checkbox"/>
3	<input type="checkbox"/>	22	<input type="checkbox"/>	40	<input checked="" type="checkbox"/>	59	<input type="checkbox"/>
4	<input type="checkbox"/>	23	<input type="checkbox"/>	41	<input type="checkbox"/>	60	<input type="checkbox"/>
5	<input type="checkbox"/>	24	<input type="checkbox"/>	42	<input type="checkbox"/>	61	<input type="checkbox"/>
6	<input type="checkbox"/>	25	<input type="checkbox"/>	43	<input type="checkbox"/>	62	<input type="checkbox"/>
7	<input type="checkbox"/>	26	<input type="checkbox"/>	44	<input type="checkbox"/>	63	<input type="checkbox"/>
		27	<input type="checkbox"/>	45	<input type="checkbox"/>	64	<input type="checkbox"/>
		28	<input type="checkbox"/>	46	<input type="checkbox"/>	65	<input type="checkbox"/>
10	<input type="checkbox"/>	29	<input type="checkbox"/>	47	<input type="checkbox"/>	66	<input type="checkbox"/>

Blank boxes indicate "No" answers

Check marked boxes indicate "Yes" answers

After all of the "yes" entries are marked, select the "Score Now" button. This will score the POSIT for display on the "POSIT Totals" page. There are two additional buttons that can be selected; "Check All" which will set all questions to yes, and "Uncheck All" which set all boxes to blank representing "No" for all questions. The "Check All" may be useful and save entry time if the majority of the questions were answered "yes". By making all of the answers "yes", the user may place the cursor on the checked box that represents no and left-click the mouse button.

## POSIT- POSIT TOTALS

Category	Score	Cut-Off	Risk Factor Questions
Substance Abuse	0	0	
Physical Health	0	3	
Mental Health	0	4	
Family Relations	0	4	
Peer Relations	0	0	
Educational Status	0	6	
Vocational Status	0	5	
Social Skills	0	3	
Leisure Recreation	0	5	
Aggressive/Delinquent	0	6	

The POSIT categories are highlighted in **Red** if the score exceeds the cut-off. This is one of the two only fields where the red is not an indication that the field is required. The POSIT Date taken is required, and if the youth refuses to take the POSIT, the Youth Declined to take POSIT should be marked along with the date.

### POSIT Date Taken

Date the deposit was given to the youth

### Youth Declined to take POSIT

Indicator signifying the youth declined to take the POSIT.

Either the Date Taken or the Declined indicator is required.

### Category

The POSIT functional areas. The category or functional area will be displayed in **Red** if the score is greater than the cut-off.

### Score

The score based on the yes entries from the POSIT ANSWERS page

**Cut-Off**

The minimum or cut-off score

**Risk Factor Questions**

The questions that were answered yes related to the functional area that are red flag designate.

## ADDENDUM

The screenshot shows a web-based application window titled "State of Kansas Juvenile Justice Authority Intake and Assessment". The interface includes a menu bar with "File", "Reports", and "Help". Below the menu is a sub-header "Intake and Assessment Registration". The main form area contains several input fields and buttons. At the top, there are fields for "Event Number:" and "Addendum Registration Number:" with buttons "Find JJIS ID", "Update JJIS", "Get Connection", "Find Intake", and "Finish". Below these are fields for "Last Accessed:" (showing "JJJA Super User" and "5/10/2005 11:30:15 AM"), "JJIS ID:" (showing "0000:00000000"), and "SID / KBI Num:". A horizontal tab bar is present with tabs for "Registration", "ID", "Phys Char", "Family", "Household", "Law", "Prior", "School", "Sub Abuse", "Mental", "Special", "CINC", "Results", "Screening", and "Addendum". The "Addendum" tab is currently selected. Within this tab, there are fields for "Date/Time Added:" (showing "5/10/2005 11:30:22 AM") and "Intake Worker:" (showing "JJJA Super User"). Below these fields is a large, empty text area for entering the addendum narrative.

The addendum information is a narrative made after the initial intake and is recorded as follow-up information. The date and time establish a chronological order. Information identifying the intake worker that entered the additional information is retained.

## 6. FINISH PARTIAL INTAKE/ASSESSMENT

There will be occasions when an intake is not completed due to a variety of reasons. The intake information is preserved and marked as incomplete.

The process begins at the sign-on screen with the selection of the “Finish Partial Intake/Assessment” button:

This will display a listing of the intakes that are not complete, either by not having all of the required fields filled in or by not having a supervisor approval.

A screenshot of a window titled 'Find Previous Intake(s)'. It has search fields for 'Last Name' and 'First Name', and a 'Locate' button. Below is a table with columns: Event Number, Last Name, First Name, Birth Date, and Intake Date. The table lists 18 records. At the bottom are buttons: 'Delete Intake', 'Cancel', 'Copy To New Intake', and 'Edit Selected Record'.

Event Number	Last Name	First Name	Birth Date	Intake Date
300	ADRIAN, TONY	TONY	11/11/1961	6/27/2002
504	ADRIAN, TONY	TONY	11/11/1961	11/1/2002
1603	ADRIAN, TONY	TONY	11/11/1961	8/15/2005
1597	ADRIAN, TONY	TONY	11/11/1961	8/11/2005
1599	ADRIAN, TONY	TONY	11/11/1961	8/11/2005
1513	ADRIAN, TONY	TONY	11/11/1961	9/16/2004
596	ADRIAN, TONY	TONY	11/11/1961	1/29/2003
1485	ADRIAN, TONY	TONY	11/11/1961	8/31/2004
1454	ADRIAN, TONY	TONY	11/11/1961	8/2/2004
1241	ADRIAN, TONY	TONY	11/11/1961	3/22/2004
1246	ADRIAN, TONY	TONY	11/11/1961	3/30/2004
763	ADRIAN, TONY	TONY	11/11/1961	5/20/2003
1012	ADRIAN, TONY	TONY	11/11/1961	10/19/2003
1492	ADRIAN, TONY	TONY	11/11/1961	8/30/2004
1278	ADRIAN, TONY	TONY	11/11/1961	4/19/2004
1594	ADRIAN, TONY	TONY	11/11/1961	8/11/2005
1266	ADRIAN, TONY	TONY	11/11/1961	4/25/2004

Select the intake to complete and then select the Edit Selected Record. Proceed to **Section 5 -- [Page Descriptions](#)** and continue with finishing the intake.

## 7. EDIT EXISTING INTAKE/ASSESSMENT

The ability to edit existing intake information is initiated by selecting the “Edit Existing Intake/Assessment” button:

This will display a screen showing a complete list of all intake records.

A screenshot of a software window titled 'Find Previous Intake(s)'. It features search fields for 'Last Name' and 'First Name', and a 'Locate' button. Below these is a table with the following columns: Event Number, Last Name, First Name, Birth Date, and Intake Date. The table contains 16 rows of data. At the bottom of the window are four buttons: 'Delete Intake', 'Cancel', 'Copy To New Intake', and 'Edit Selected Record'.

Event Number	Last Name	First Name	Birth Date	Intake Date
300	ADRIAN, ADRIAN	ADRIAN	11/1/2002	6/27/2002
504	ADRIAN, ADRIAN	ADRIAN	11/1/2002	11/1/2002
1603	ADRIAN, ADRIAN	ADRIAN	8/15/2005	8/15/2005
1597	ADRIAN, ADRIAN	ADRIAN	8/11/2005	8/11/2005
1599	ADRIAN, ADRIAN	ADRIAN	8/11/2005	8/11/2005
1513	ADRIAN, ADRIAN	ADRIAN	9/16/2004	9/16/2004
596	ADRIAN, ADRIAN	ADRIAN	1/29/2003	1/29/2003
1485	ADRIAN, ADRIAN	ADRIAN	8/31/2004	8/31/2004
1454	ADRIAN, ADRIAN	ADRIAN	8/2/2004	8/2/2004
1241	ADRIAN, ADRIAN	ADRIAN	3/22/2004	3/22/2004
1246	ADRIAN, ADRIAN	ADRIAN	3/30/2004	3/30/2004
763	ADRIAN, ADRIAN	ADRIAN	5/20/2003	5/20/2003
1012	ADRIAN, ADRIAN	ADRIAN	10/19/2003	10/19/2003
1492	ADRIAN, ADRIAN	ADRIAN	8/30/2004	8/30/2004
1278	ADRIAN, ADRIAN	ADRIAN	4/19/2004	4/19/2004
1594	ADRIAN, ADRIAN	ADRIAN	8/11/2005	8/11/2005
1266	ADRIAN, ADRIAN	ADRIAN	4/25/2004	4/25/2004

The list includes those intakes that have been approved and those that are partially completed. If the intake has been approved, only a supervisor may initiate an edit of an approved intake. After selecting the intake to edit, select the OK button. Proceed to **Section 5 – [Page Descriptions](#)** and continue with finishing the intake.

A previous intake may be used to initiate a new intake for the same juvenile. Select the Copy to New Intake button. This will copy key information from an existing intake and

populate a new intake, reducing much of the overhead required in entering key information.

## 8. CUSTOM INQUIRY AND REPORTS

The user may create ad-hoc reports for quick access and analysis. To initiate the process select the “Custom Inquiry and Reports” button:

This will display the Custom Inquiry and Reports screen.

The screenshot shows a window titled 'Custom Inquiry and Reports'. It has two input fields at the top: 'Report Title' with the value 'New Report 004' and 'General Description' with the value '02/14/02 test'. Below these is a table with four columns: 'Field To Print', 'Low Value', 'High Value', and 'Column Title'. The table contains four rows of data. At the bottom of the window is a toolbar with icons for a printer, first, previous, next, last, and a red X. To the right of the toolbar are three buttons: 'Show Count', 'Preview', and 'Print'.

Field To Print	Low Value	High Value	Column Title
Full Name			Full Name (FML)
Added Date	12/30/2001	02/14/2002	Added Date
Age			Age
SSN			SSN

This inquiry and reports is to serve as an ad-hoc reporting tool only. It is not designed to produce formatted reports. The Microsoft Word process (explained in the **Overview** ) may be used. This would allow a cut & paste process to place extracted data into a formatted report.

Initiates the process to develop ad-hoc queries for inquiries and/or reports using the agency local database.

### Report Name

User defined title of the report. The report parameters will be save for future use and will be referenced by the title.

### Description

This field is for a narrative providing a general description of the report. This description corresponds with the report title.

### Group

This is a drop-down selection listing field groupings. The data fields are associated with a business function group. The main purpose of this field is to reduce the number field selections when searching for specific data fields.

### Field

This is a drop-down selection listing the field names available for reporting. It will be limited to the group selected (see previous). If no group is selected all of the fields will be presented and when a field is selected the Group will be populated. The groupings help to limit the number of fields displayed for selection.

	Group	Field Name	Low
	Juvenile		
		Juvenile Medical Narrative	
		Juvenile Mental Health comments	
		Juvenile Name First	
		Juvenile Name Last	
		Juvenile Name Middle	
		Juvenile Narrative	
		Juvenile Narrative of gang affiliation	

Fields to select for reporting

### Low Value

This field provides the user the ability to place a search criteria low value. Records selected will be equal to or greater than the value entered. If no value is entered, all records will be considered. As an example, if the search were for juveniles with ages 14 or older, the low value would be 14.

### High Value

This field provides the user the ability to place a search criteria high value. Records selected will be equal to or less than the value entered. If no value is entered, all records will be considered. As an example, if the search were for juveniles with ages 16 or younger, the high value would be 16.

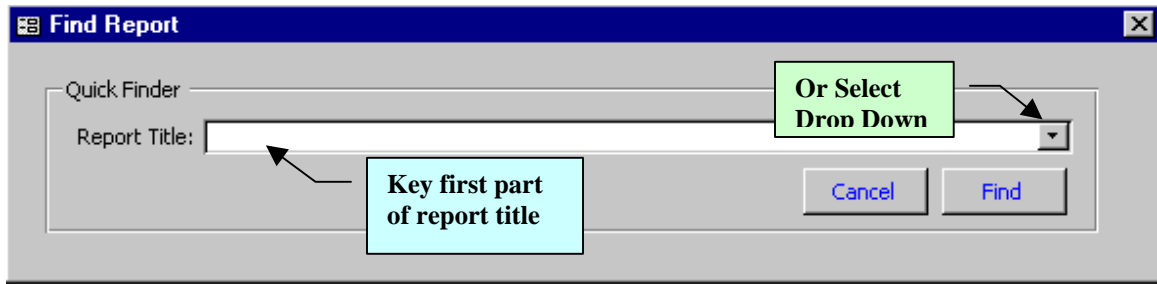

Note: Using both the Low Value and High Value will set boundaries for accessing data. As an example, if the search were for ages 14 through 16, the high value would be 16. Also, there can be multiple fields used for selection criteria.

The following is an example of inputting selection values:

	Group	Field Name	Low Value	Hi Value
	Court Cases	Court Case Number		
	Juvenile	Juvenile Name Last		
	Juvenile	Offense Statute		
	Court Cases	Age	14	16

**Find Button**

This button is displayed as binoculars. It is used to find a specific report the user has created previously. When the find button is selected the following screen will be displayed.

By selecting the drop down, a list of the available reports will be displayed. Typing the first characters of the report name in the Report Title field will also display the drop down, beginning at the point where the characters match the title or the title is greater. The following is an example of the drop down that will be displayed.

After identifying the report, place the cursor on the report title and left-click the mouse button. The requested report will be displayed.

Place the cursor on the “Find” button and left-click the mouse button. The requested report will be displayed – ready for executing or modifying.

### Reports Navigation

A quick way to find an existing ad-hoc report is to use the “Find” button (as described previously). Another way of finding an existing ad-hoc report is to use the scrolling arrows. The scrolling arrows provide the ability of locating an existing ad-hoc report by going forward or backward one report at a time, or beginning at the first report or the last report.

### **Advanced**

This button provides a menu to incorporate advanced features for the custom report.

### **Show Count**

This button provides a count of the number of records found that met the search criteria. This will be helpful for quick counts of specific information.

### **Create New Report**

The “Create New” button  will create a blank form ready for entry.

Key in the report name, key in meaningful description identifying the report, select the fields to be selected/printed, any selection criteria required, modify field headings if needed, adjust any field widths (this may be needed after a preview of the report is performed), mark any breaks that are desired, and identify if the information should be expanded within the field to multiple lines or should be truncated – then select the “Preview” button to execute the query/report.

**Note:** Obtaining the desired display results may require many iterations of previewing the report after modifications are made. Modifications can be made to any of the fields prior to previewing the report. The report specifications (fields) will be saved upon exiting this process.

### **Delete Report**

The delete button  will delete the report/query that is displayed

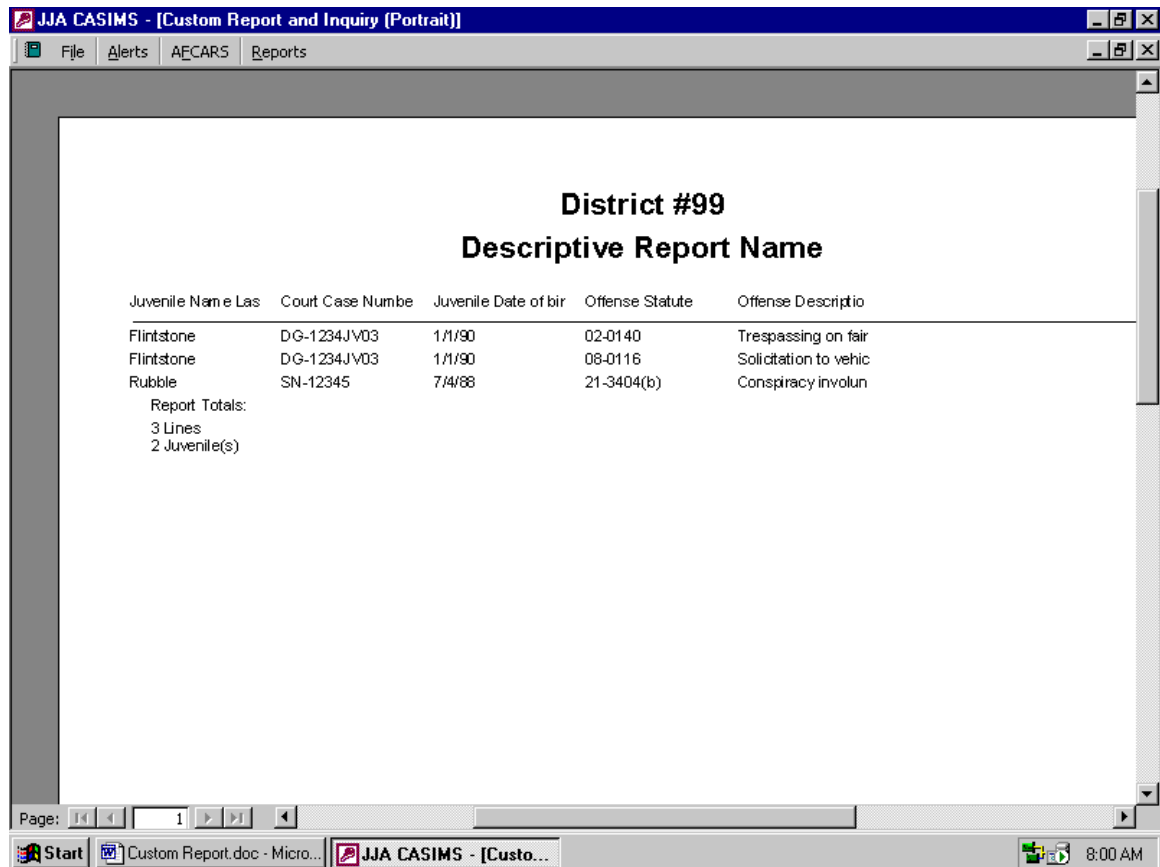

### **Preview/Print**

The reports can be previewed and then printed, or be printed without a preview. It is recommended as the query/report is being refined that all reports are reviewed. Once a report or query meets the desired results, it would then be timesavings to have the reports printed without a preview.

Each report generated with this tool will print the following disclaimer at the bottom of the report:

“All records or reports of law enforcement officers, agencies, diagnostic, treatment records, medical records, and municipal court records, concerning public offense committed by juvenile offenders shall be confidential and privileged and shall not be disclosed unless specifically authorized by K.S.A; 38-1607, 38-1608, and K.S.A. 38-1609”.

The following is an example of previewing a report:

The report may be printed, may be cancelled for modifications, or may be transferred to MS Word™. And for those sites that are using Outlook™ for their e-mail, for those not using Outlook the document can be saved as a Word document and an e-mail can be created with the report attached.

## Advanced

Advanced functionality provides additional processing options to both specific fields within a query/report and the overall presentation of the query/report. Start by selecting the field name you wish to apply advanced functionality.

Then select the “Advanced” button in which the following pop-up screen appears:

**Report Column Advanced Options**

Field Name:

Print Name:

Width:

Line:

Break:

☐ Show Line Count on Break

☐ Show Juvenile Count on Break

☐ Show Subtotals on Break

☐ Bold

☐ Underline

☐ Italic

☐ Column Can Grow

☐ Hide Repeated Values

☒ Print Column

The “Field Name” reflects the Field Name from the selected line.

### **Print Name**

This field identifies the column heading when this field is printed. An initial description will be entered automatically. The heading may be overtyped for entering custom headings or blanked out for no headings.

### **Width**

This field identifies the printing width of the field. An initial width will be entered automatically. The widths are captured in inches (e.g. 1 = one inch, 2 = two inches, 1.5 = one and one-half inch, etc.).

### **Line**

This field identifies which report line the field is to be printed. (This is useful if the number of fields is greater than a single line and it is advantageous to place the extra information in following lines)

District Descriptive F			
Juvenile Name Last Birth Date	Court Case Number	Offense Statute	Offense
Flintstone 1/1/90	DG-1234JY03	<u>02-0140</u>	Trespass
Flintstone 1/1/90	DG-1234JY03	<u>02-0140</u>	Trespass
4 Juvenile Name Last Flintstone 1 Juvenile(s)			

Example printing  
birth date on line 2

### Break

This identifies there will be a break (blank line) when the value of the field changes. To mark a field for breaking the following fields the user needs to select the number of blank lines that are to appear after the break totals appear.

Break None

None

1 Line

2 Lines

3 Lines

4 Lines

5 Lines

6 Lines

7 Lines

The identification of break line opens the options for selecting the type of totals to be displayed.

Break 2 Lines

☒ Show Line Count on Break

☒ Show Juvenile Count on Break

☒ Show Subtotals on Break

### Show Line Count on Break

Displays the number of lines when the designated break occurs

### Show Juvenile Count on Break

Displays the number of juveniles processed within the designated break

Juvenile Name Last	Court Case Number	Juv	Line Count
Flintstone	DG-1234JV03	1/1/	
Flintstone	DG-1234JV03	1/1/	
2 Juvenile Name Last Flintstone			
1 Juvenile(s)			Juvenile Count
Rubble	SN-12345	7/4/	
1 Juvenile Name Last Rubble			
1 Juvenile(s)			

### Show Subtotals on Break

Provides a subtotal for numeric fields

There are some attributes that may be applied to a selected field. These are accomplished by selecting the designated one:

- ☐ Bold
- ☐ Underline
- ☐ Italic

The field may be set to Bold, may have an underline, and/or may be set to italics

District #99				
Descriptive Report Name				
Juvenile Name Last	Court Case Number	Juvenile Date of bir	Offense Statute	Offense Descriptio
Flintstone	DG-1234JV03	1/1/90	<b><u>02-0140</u></b>	Trespassing on fair
Flintstone	DG-1234JV03	1/1/90	<b><u>08-0116</u></b>	Solicitation to vehic
Rubble	SN-12345	7/4/88	<b><u>21-3404(b)</u></b>	Conspiracy involun
Report Totals:				
3 Lines				
2 Juvenile(s)				

Example of bold, underlined, and italic

The next set of advanced options address the columns associated with the selected fields of the report.

- ☐ Column Can Grow
- ☐ Hide Repeated Values
- ☒ Print Column

**Column Can Grow**

This field identifies the information should not be truncated but if the information reaches the defined width the remaining information should overflow into following lines, in the same column. (This is useful for narratives or long descriptions)

**Hide Repeated Values**

If the rows within the column are repeated only the first occurrence will be displayed versus the same information displayed on every line

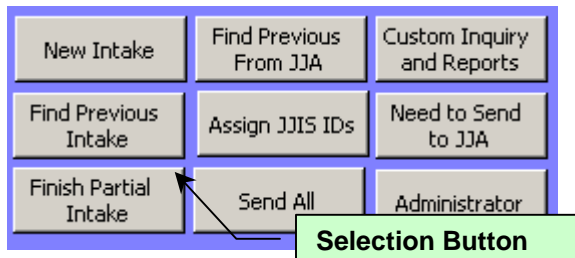

**Print Column**

This is defaulted to yes for printing each column. You may suppress the printing of the column by removing the selection.

**Note:** There is a 1/2-inch margin on each side of the report, and 1/10 of an inch between each field. The form will be portrait for documents up to about 7.5 inches. As the document grows the document will be altered to a landscape format. The landscape format can handle about 10 inches. If the information is greater than the specified length of the field the information is truncated

## 9. FIND PREVIOUS INTAKE

The first step that might be used would be to select the Find Previous Intake button.

A screen will be displayed showing the intakes on the local database. From here, the find may be made more specific by entering the name. After identifying the youth that is being researched, select the event record and then select the View Selected Intake button. Notice the ability to copy to a new intake is disabled. The user can edit the selected intake.

Find Previous Intake(s)

Last Name  First Name

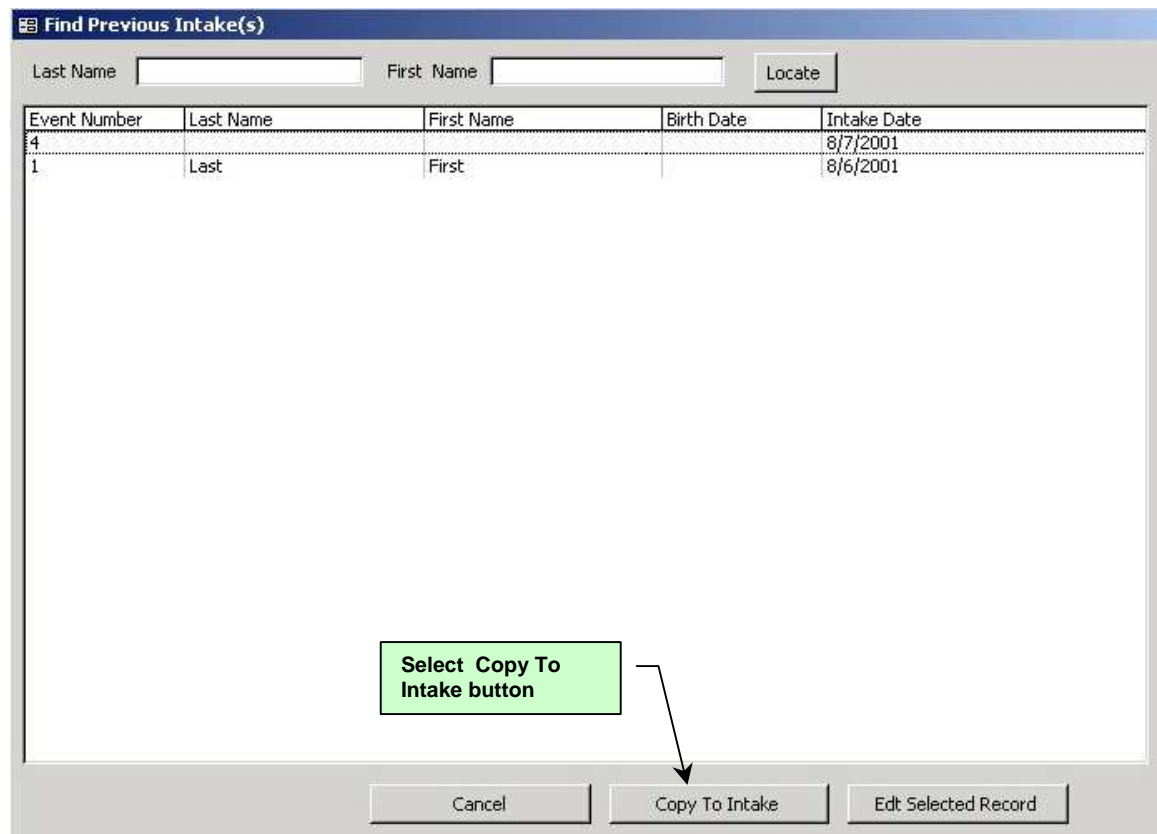

Event Number	Last Name	First Name	Birth Date	Intake Date
1	Last	First		8/6/2001

If the youth has had a prior intake, it would be advantageous to not have to re-key specific information that will probably be common from one intake to another. The find of an intake can also be initiated from the intake processing screens by selecting the “Find” button. This will invoke the same find routine but will allow key information

from the found intake to be copied into the new intake, reducing the amount of data entry required.

After selecting the find intake button, the next step is to select the youth's prior intake by positioning the cursor on their name and left click the mouse. This will highlight the youth's record. Next select the Copy To Intake button.

Event Number	Last Name	First Name	Birth Date	Intake Date
4				8/7/2001
1	Last	First		8/6/2001

Key information regarding the youth will be copied from a previous intake into the current intake. The intake worker may now verify for accuracy and edit for correctness.

**Last Name**

Key in the last name of the youth.

**First Name**

Key in the first name of the youth.

**Locate**

Button used to tell the application to search the local database for the youth. If both the last name and first name are blank all juvenile intakes will be displayed.

**Cancel**

Do not perform the search process and return to the menu.

**View Selected Intake**

Selects the intake and provides the information for viewing.

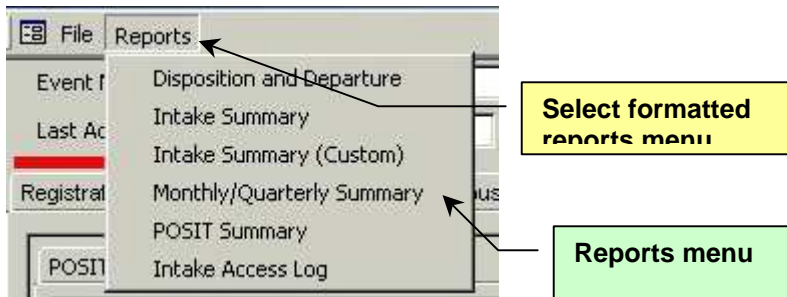

If the intake record was created prior to the changes for identifying intake type a message will be displayed:

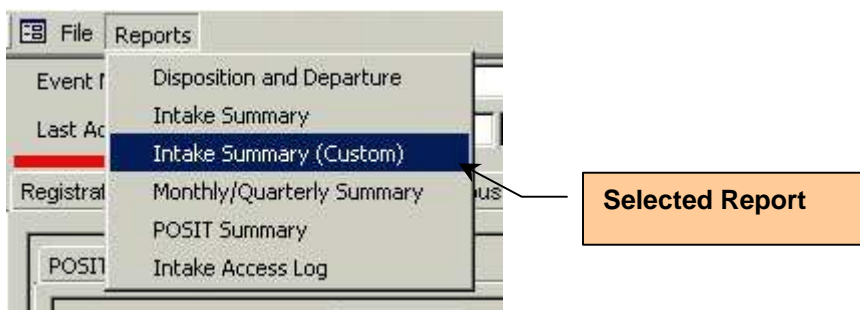

## 10. REPORTS

---

There are numerous formatted reports available for printing. The reports menu is made available by selecting the File on the menu bar.

Select the report by placing the cursor on the report desired.

The report will be highlighted. Click the left button on the mouse. A report review will be provided. From here the user may print the report or return to the screen where the report request was originated.

## MONTHLY/QUARTERLY SUMMARY

The monthly / quarterly summary report provides a summary of intake activity. This report is accessed only from the sign-on screen by selecting Reports and then Intake Statistics. Note – all other formatted reports are accessed from the main body of screens.

The first screen displayed is to enter begin and end dates the report is to report. After entering the dates, select the Continue button.

The report will provide the number of juvenile offender intakes and the number of CINC intakes that occurred during the timeframe specified.

Request for 1/1/2005  
through 12/31/2005

### Juvenile Intake and Assessment Intake Statistics District #02

Depressed - Anxious	0	3 to 5	9	
Somatic Complaints	0	3 to 5	6	
Suicide Ideation	0	2	5	

## ***INTAKE ACCESS LOG*** \_\_\_\_\_

The application maintains an access log report showing the users who accessed the intake, and when they accessed the intake. This is used as an access audit trail.

## 11. SUPERVISOR APPROVAL

---

The intake is not considered complete until all of the required fields are entered and there is supervisor approval. The approval cannot occur until all of the required fields are complete. The supervisor will use the Finish Partial Intake/Assessment process to select the intake for review. Approval is made by the supervisor selecting the “Approved By:” the supervisor name from the drop-down selection.

A screenshot of a web form for supervisor approval. The form has a light gray background. It contains several fields with red labels: 'Process Begin Date / Time:' with a date field containing '8/6/2001' and a time field containing '8:06 PM'; 'Process End Date / Time:' with a date field containing '8/6/2001' and an empty time field; 'Approved By:' with a dropdown menu; 'Date Approved:' with an empty text field; 'Date Released To JJA:' with an empty text field; and 'Intake Printed and Sent To Courts Before Approval:' with an unchecked checkbox.

The drop-down will display the supervisors assigned to the application. The supervisor that approved the intake is selected by placing the cursor on the approving supervisors name and then left-click the mouse button.

A screenshot of the same form as above, but with the 'Approved By:' dropdown menu open. A green callout box with the text 'Select the drop-down' and an arrow points to the dropdown arrow. The dropdown menu shows two options: 'Demo Supervisor' (highlighted in black) and 'Jim Davis'.

The name and the date approved are populated into their respective fields.

A screenshot of the same form as above, but with the 'Approved By:' dropdown menu closed and 'Demo Supervisor' selected. The 'Date Approved:' field is now populated with '8/7/2001 10:32:54 AM'.

The intake is now ready to be uploaded to the central data repository (Update JJIS).

## 12. CENTRAL OFFICE DATA WAREHOUSE

---

The information retained on this application is maintained on the Juvenile Justice Central Office data warehouse in addition to the local database. Juvenile Offender information is captured and made available for access on the data warehouse. A Juvenile Justice Information Services Identification (JJISID) number is assigned to each juvenile for tracking purposes. The data warehouse can be used for accessing prior intakes, for searching for prior intakes from other intake centers, for identifying a prior intake's assigned JJIS identification number, for providing key information to the Community Case Management Agency application or the Juvenile Correction Facility application, and for providing statistical information for the central office.

### *CONNECTING TO THE INTERNET*

---

When you select Get JJISID or Update JJIS from any of the intake forms, the system checks to see if you have a secure connection to the JJA restricted internet site. If you do, you will be taken directly to the selected screen. If not, the system will automatically initiate the Microsoft Internet Explorer browser (5.0) or greater and link the user to the JJA restricted Internet site. The following screen will be displayed:

The screenshot shows a Microsoft Internet Explorer browser window with the title "SecurID PASSCODE Request - Microsoft Internet Explorer". The address bar shows the URL "https://165.201.76.68/jjams/Connect.asp". The page content includes the heading "SecurID PASSCODE Request" and a message: "The page you are attempting to access requires you to authenticate using your SecurID token." Below this, it says: "Enter your Username and SecurID PASSCODE in the following fields, and then click 'Send.' If you make a mistake, use 'Reset' to clear the fields." There are two input fields: "Username:" and "PASSCODE:". At the bottom, there are two buttons: "Send" and "Reset".

**SecurID PASSCODE Request**

The page you are attempting to access requires you to authenticate using your SecurID token.

Enter your Username and SecurID PASSCODE in the following fields, and then click "Send." If you make a mistake, use "Reset" to clear the fields.

Username:

PASSCODE:

This screen requires the user to enter their name and their password. The password is a combination of a user-defined set of numbers combined with the numbers obtained from their security token.

SecurID PASSCODE Request

The page you are attempting to access requires you to authenticate using your SecurID token.

Enter the user name

Username: name.jjaco

PASSCODE: \*\*\*\*

Send Reset

Enter pass code that includes the token code

After successfully obtaining a secured sign-on, the following screen will be displayed.

### ***FIND JJIS ID***

The ability to search the JJA Central Office data warehouse is initiated by placing the cursor on the Find JJIS ID button and left-click the mouse button.

Select the find for the central office data warehouse

Find JJIS ID Update JJIS Find Intake Finished

Last Accessed: Jim Davis 11/9/2001 9:48:13 AM JJIS ID: SID / VSD Num

After connecting to the Internet (explained previously) is complete a search screen will be displayed.

**JJAMS Locate and Add Form**

Last:  First:  Middle:  Exact Match: ☐  
 DOB:  SSN:  Sort By:  Sounds Like: ☒

JJIS ID	Last	First	Middle	DOB	SSN	Source
Enter all or partial name						

Use Selected Intake Add Juvenile **Search** Reset Cancel

Ready to Continue (Revised 05/12/05) Trusted sites

There are 2 check boxes in the upper right of the form.

If the user checks the “Exact Match” then the form will only display juveniles who’s name and DOB match exactly.

The “Sounds Like” check box is automatically checked. When it is checked, all juveniles who’s name resembles the juveniles name will be displayed. For instance, if the user types in Smith, then all juveniles with the last name of Smith, Smythe, and Smithe will be displayed. If the user unchecks “Sounds Like” then the system compares what the user types in against the first part of the name. For example, if the user types Jon, the system will display Jonson, Jones, and Jonnish

Leaving the name fields blank will return the list of juvenile offenders from the beginning of the alphabet when the “Search” button is clicked.

**JJAMS Locate and Add Form**

Last:  First:  Middle:  Exact Match: ☐  
 DOB:  SSN:  Sort By:  Sounds Like: ☒

JJIS ID	Last	First	Middle	DOB	SSN	Source
0000010970	Zellner	Thomas	unknown	04/21/1989	486-94-2476	JJAMS
0000012514	Zackery	William	JACKSON	03/22/1985	486-94-2476	JJAMS

Use Selected Intake Add Juvenile Search Reset Cancel

If the intake is for a juvenile who has not been previously entered into the JJIS system, click the “Add Juvenile” button and the juvenile will be added and the JJIS ID will be returned to JJAMS.

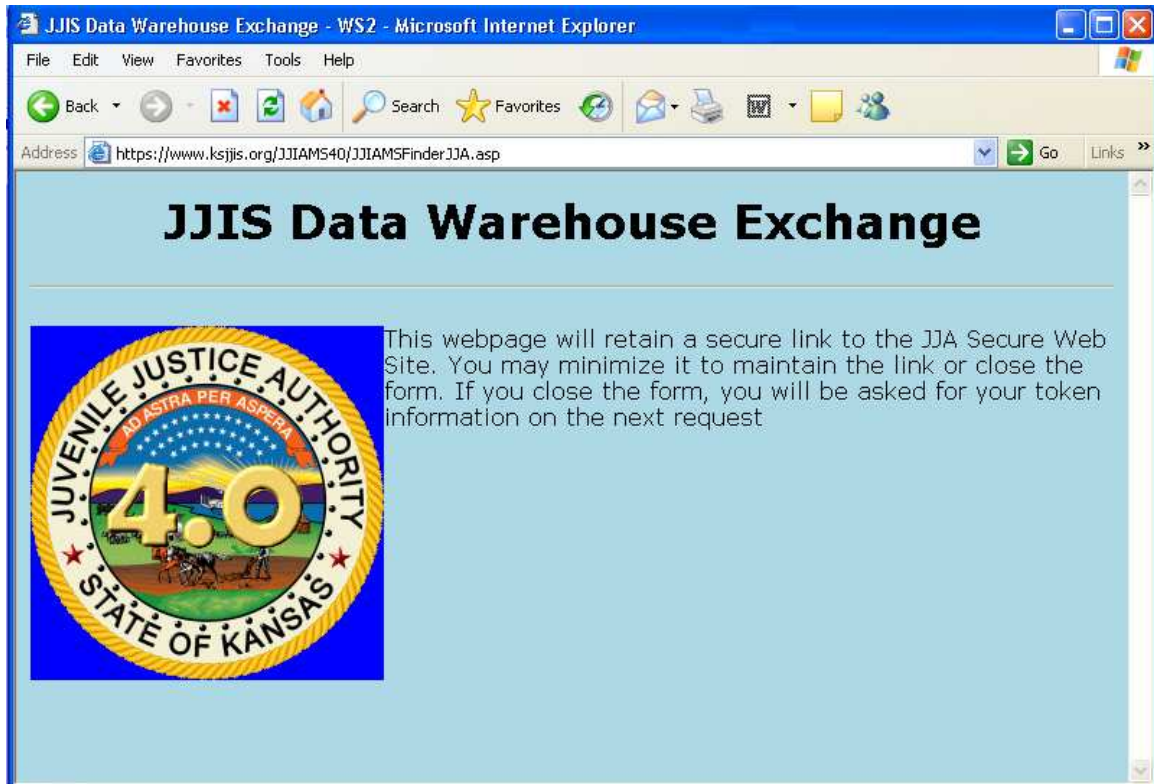

If the juvenile has been previously entered into the JJIS system and is in the list presented, select the juvenile and click the “Use Selected Intake” button.

The system will prevent duplicates based on SSN.

If the intake is new and the juvenile offender found on the central office data warehouse key information may be copied to the current intake to minimize keying information. The following will appear prior to returning to the intake screens.

You may see the following screen depending on the version of Microsoft Windows and Microsoft Internet Explorer you are using. If the screen is displayed, click minimize the form to retain your secure link to the JJA restricted Internet site. As long as you maintain your connection, you will not be prompted for your token information again.

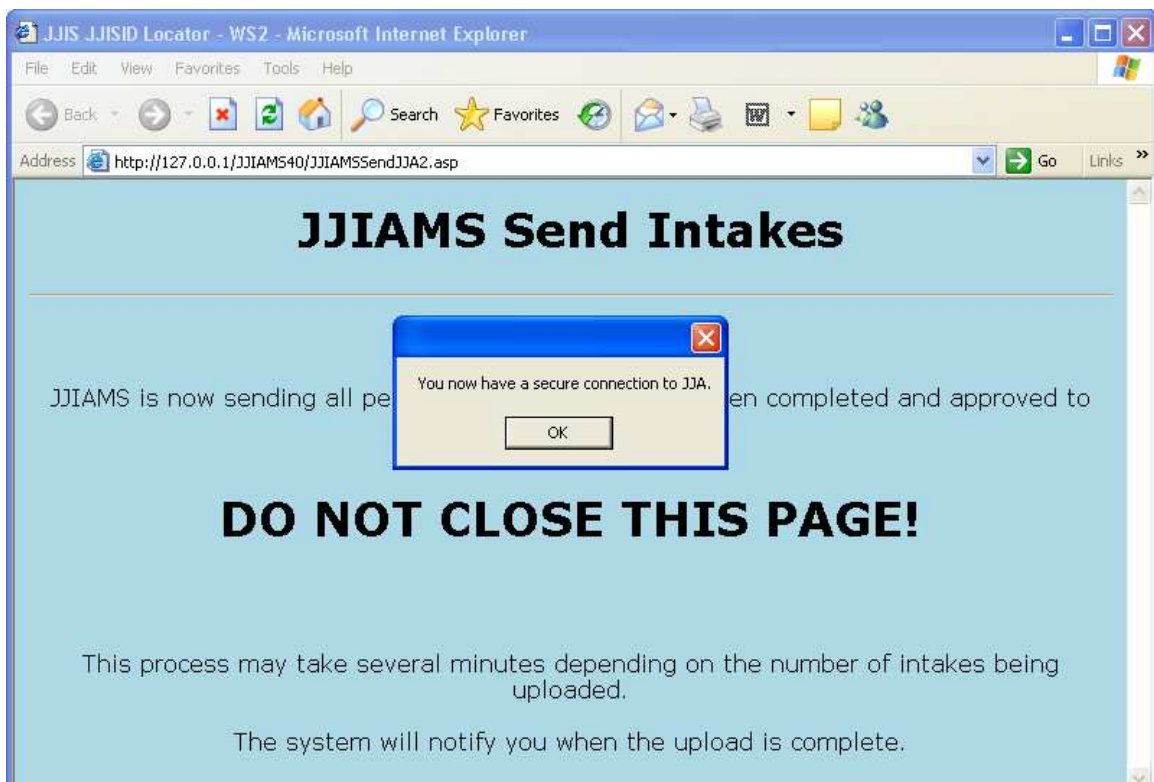

## UPDATE JJIS

After the intake is complete and the supervisor has approved, the intake is transferred to the central office data warehouse. If the juvenile is new to the system, a new JJISID is assigned. If the juvenile has had prior intakes, the option of associating the JJISID number is provided. This JJISID number is returned to the original intake for updating purposes. The user begins the process by selecting the “Update JJIS” button.

When the “Update JJIS” option is selected, the system verifies a secure connection to the JJA restricted website. If the secure connection does not exist, the user will be prompted for the security token User ID and Password as illustrated above.

If the intake has been assigned a JJISID, the following screen will be displayed.

Click OK to continue the upload process. This process may take a few minutes.

When the upload is complete, the following message will be displayed:

If the JJIS ID had not been assigned at the time the user clicks the “Update JJIS” button, a form similar to the “Find JJIS ID” form will be displayed allowing the user to select an existing JJIS ID or add a new one. The JJISID will be entered into the Intake and the intake will be uploaded to JJA.

This process works the same as identified in the “Find JJIS ID” with the difference of not being able to copy but to either select an existing juvenile or to add a new juvenile.

A screenshot of a web browser window titled 'JJIS JJISID Locator - WS2 - Microsoft Internet Explorer'. The address bar shows 'https://www.lsjjs.org/JJIS40/JJISFinderJJ2.asp'. The main content area is titled 'JJIS Locate and Add Form'. It contains several input fields: 'Last' (Zellner), 'First' (William), 'Middle' (JACKSON), 'DOB' (03/22/1985), 'SSN' (486-94-2476), 'Sort By' (Last Name), 'Exact Match' (checkbox), and 'Sounds Like' (checkbox). Below these fields is a table with one row of data. At the bottom of the form are five buttons: 'Use Selected Intake', 'Add Juvenile', 'Search', 'Reset', and 'Cancel'. Two green callout boxes with arrows point to the 'Use Selected Intake' and 'Add Juvenile' buttons. The first box is labeled 'Select Existing Juvenile' and points to 'Use Selected Intake'. The second box is labeled 'Add new juvenile' and points to 'Add Juvenile'.

The form will have the name, dob, and SSN for the juvenile being sent to JJA. If the juvenile exist in the JJIS system, their information will be displayed in the list. If the juvenile exists, place the cursor on the juvenile line and select the “Use Selected Intake” button. The juvenile will be added with the current JJISID associated with the record. If the “Add Juvenile” button is selected, this is an indication the juvenile is new to the

system and a new JJISID will be assigned. The remaining functions are described in the “Find JJIS ID”.

Note: With the Send All ability, the use of doing a juvenile on an individual basis is not necessary but remains an option

### ***IDENTIFYING INTAKES APPROVED BUT NOT SENT***

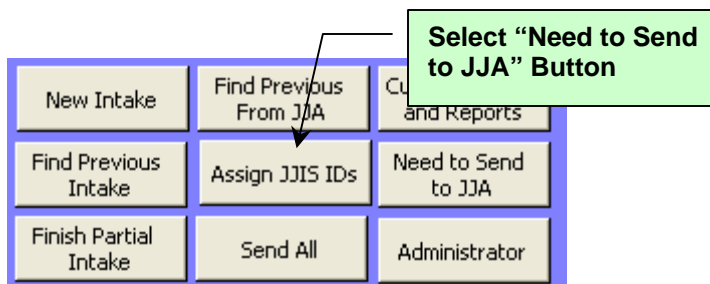

The ability to upload to the central office data warehouse is performed within the core application (see section 5 - [Page Descriptions](#)). There is the option of identifying those intakes in which all of the required data has been captured and supervise approved but the intake has not been updated to the central office data warehouse. Displays of these intakes are initiated by placing the cursor on the “Need to Send to JJA” button and click the left mouse button.

A screenshot of a dialog box titled "Need To Send to JJA". It features input fields for "Last Name" and "First Name", and a "Locate" button. Below these is a table with the following headers: "Event Number", "Last Name", "First Name", "Birth Date", and "Intake Date". The table body is empty. At the bottom are "Cancel" and "Ok" buttons.

Event Number	Last Name	First Name	Birth Date	Intake Date
--------------	-----------	------------	------------	-------------

This selection will provide a screen of intakes where all of the data has been captured but no upload has occurred. Select the JO desired and select the OK button. This will open the record in which the upload central office data warehouse can then occur.

Assign JJIS IDs allows the user to assign the JJIS ID for several juveniles at once. When Assign JJIS IDs is selected from the login screen, the system checks for a secure connection to the JJA restricted website. If the secure connection is not present, the security token information is requested. Once a secure connection is identified,

**JJIS ID Assignment**

Match the juveniles in your system to a juvenile on file at JJA or select Add if no match is found.

Juveniles With No JJISID Assigned:

Adams	Abram	J	02/18/1988	511-11-1112
Baker	Allena	D	11/16/1984	511-22-1113
Campus	James Jr.	Carl	05/22/1985	511-33-1114
Davisre	Kevin	Richard	03/29/1985	511-55-1115
Edwards	Derrick	Leonard	01/30/1989	511-66-1116
Fredricks	Tyler	Eugene	05/17/1985	511-77-1117
Gregory	Patrick	L	09/03/1984	511-88-1118
Harrison	Kaleb	Erik	12/06/1984	511-99-1119

Possible Matches:

Use Selected Juvenile      Assign New JJISID Number

The top list shows all the intakes that do not have a JJIS ID assigned. Click on one of the intakes listed in the top list and the possible matches at JJA will be displayed in the bottom list.

**JJIAMS JJIS ID Assignment**

Match the juveniles in your system to a juvenile on file at JJA or select Add if no match is found.

**Juveniles With No JJISID Assigned:**

Adams	Abren	J	02/18/1988	511-11-1112
Baker	Allena	D	11/16/1984	511-22-1113
Campus	James Jr.	Carl	05/22/1985	511-33-1114
Davisre	Kevin	Richard	03/29/1985	511-55-1115
Edwards	Derrick	Leonard	01/30/1989	511-66-1116
Fredricks	Tyler	Eugene	05/17/1985	511-77-1117
Gregory	Patrick	I.	09/03/1984	511-88-1118
Harrison	Kaleb	Erik	12/06/1984	511-99-1119

**Possible Matches:**

Adams	Abren	J	0000002908
-------	-------	---	------------

Use Selected Juvenile      Assign New JJISID Number

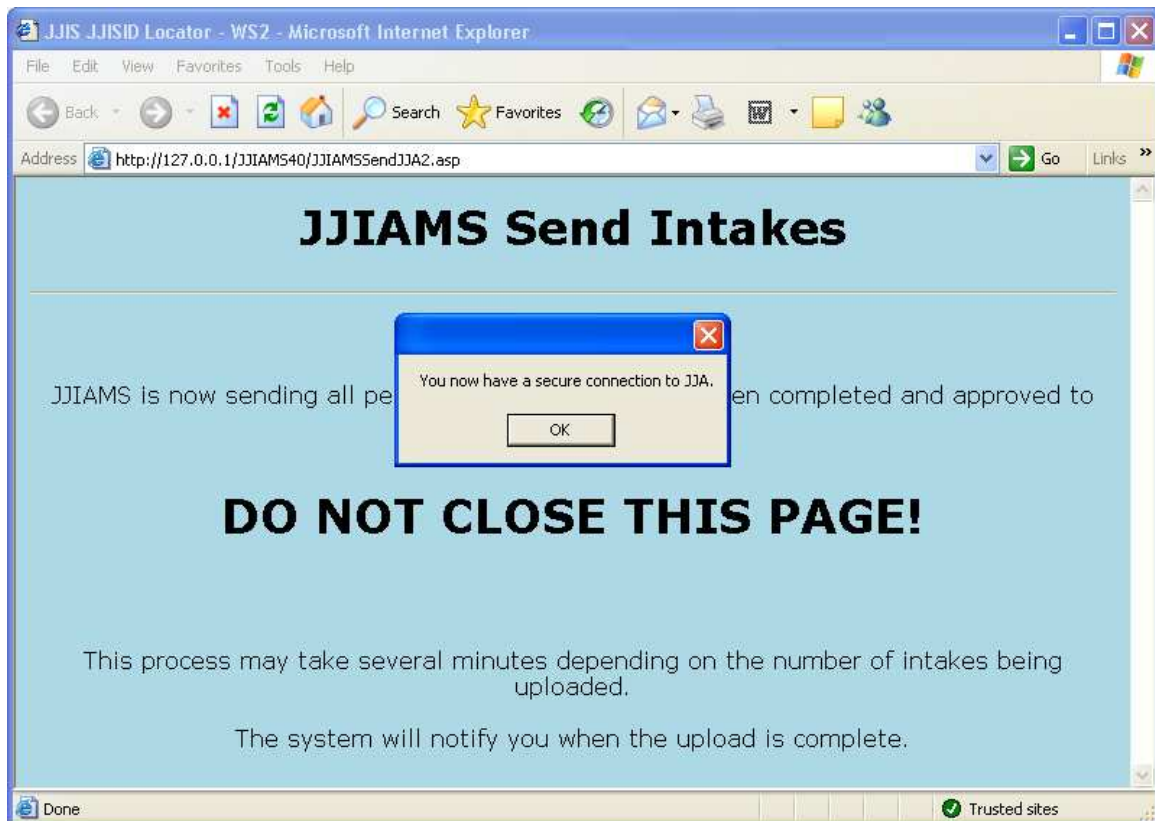

If the juvenile does not appear in bottom list, the user can click the “Assign New JJISID Number” button and a new JJIS ID will be assigned and the intake will be removed from the top list.

If the juvenile appears in the bottom list, select the line that matches and click the “Use Selected Juvenile” button. The JJIS ID from the selected line will be assigned to the intake. The intake will be removed from the top list.

New Intake	Find Previous From JJA	Custom Inquiry and Reports
Find Previous Intake	Assign JJIS IDs	Need to Send to JJA
Finish Partial Intake	Send All	Administrator

The “Send All” option on the Login screen allows the user to send all pending intakes to JJA at one time. It will only send intakes that have all the required (red) fields filled in and meet all the validation criteria (i.e. the arrest date is before the intake begin date). The intakes have the JJISID assigned prior to selecting the “Send All” button.

The screens displayed are the same as the ones displayed if you select “Update JJIS” for a juvenile with their JJIS ID assigned.

Click OK to continue the upload process. This process may take a few minutes. When the upload is complete, the following message will be displayed:

## 13. IMPORT / EXPORT

---

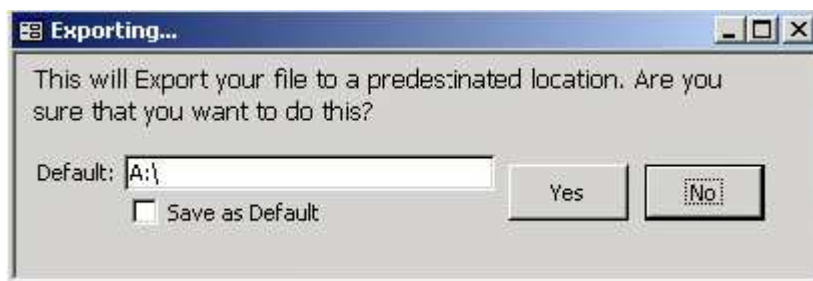

There will be times when the need arises to capture an intake on a diskette or other medium, or to obtain an intake from a diskette. The ability to easily transfer an intake from one computer to another using a diskette or e-mail is as easy as point-and-click. By placing the cursor on the File, a menu is displayed offering the options of importing an intake from a diskette or exporting the intake to a diskette or other file medium.

### EXPORT

---

Selecting the export option will present a screen that will allow the user to specify the location where the intake is to be exported. The default is associated with the option page in the table maintenance under the Administration functions. The user may change the default receiving path and save it as a default for future use.

### IMPORT

---

Selecting the import option will present a screen that will allow the user to specify the location where the intake is to be imported. The default is associated with the option page in the table maintenance under the Administration functions. The user may change the default path where the intake is to come and save it as a default for future use. The user may also delete the input file after the intake has been loaded.

Caution should be used if the delete files box is selected.  
The process is designed to prevent duplicate intakes from being loaded.

## 14. FINISHED

---

When the user has finished and wish to exit, the recommended way is to select the “Finished” button. This will save the information and return the user back to the sign-on menu.

Exiting may also occur by selecting File and then Exit. Another way of exiting is to select one of the close options. Alternative one will return the user back to the menu. The File/Exit and the alternative two close selection will terminate the user’s session.

## 15. GUIDELINES

The Juvenile Justice Authority central office provide guidelines in which intake centers are provided to assist in meeting expectations. These guidelines will be updated as the Intake Directors and JJA Central Office identify the need for them.

1. Intakes are to be completed within an average of 3 business days after the initiation of the intake. This includes the uploading of the intake to the JJA Central Office data warehouse (although this will be a near future function). Periodic intake center audits may occur to address issues regarding this process.
2. The POSIT is a voluntary brief screening tool designed for adolescents 12 through 19 years of age to identify problems requiring an in-depth assessment and potentially a need for treatment. The POSIT will not be administered to those youth: 1) physically unable to answer the questionnaire, 2) incapable of understanding written or spoken English or Spanish, 3) from out-of-state, 4) under 13 years of age, 5) if the intake worker believes administration is inappropriate, or 6) if youth refuses to complete the instrument.
3. The MAYSI-2 is a paper-and-pencil self-report inventory of 52 questions. Youths circle "yes" or "no" concerning whether each item has been true for them "within the past few months." The MAYSI-2 requires a fifth grade reading level and takes approximately 10-15 minutes to complete. Scoring of MAYSI scales requires about 3 minutes.

### MAYSI-2 Scales

<i>Alcohol/Drug Use</i>	Frequent use of alcohol/drugs
	Risk of substance abuse
<i>Angry-Irritable</i>	Experiences frustration, lasting anger, moodiness
	Risk of angry reaction, fighting, aggressive behavior
<i>Depressed-Anxious</i>	Experiences depressed and anxious feelings
	Risk of depression or anxiety disorders
<i>Somatic Complaints</i>	Experiences bodily aches/pains associated with distress
	Risk of psychological distress not otherwise evident
<i>Suicide Ideation</i>	Thoughts and intentions to harm oneself
	Risk of suicide attempts or gestures
<i>Thought Disturbance</i>	(Boys only) unusual beliefs and perceptions
	Risk of thought disorder
<i>Traumatic Experiences</i>	Questions refer youths to "ever in the past," not "in the past few months"
	Lifetime exposure to traumatic experiences (e.g., abuse, rape, observed murder)

The MAYSI-2 is designed to assist juvenile justice facilities in identifying youths 12 to 17 years of age who may have special mental health needs. It is intended for use at any point in the juvenile justice system

## **16. GETTING HELP**

---

The Juvenile Justice Authority central office provides help desk support and will be the focal point to assist users that are encountering problems. The JJA Help Desk will act as a “one stop shopping” for obtaining user assistance in addressing problems ranging from hardware problems to accessing the JJIS web site and JJIS-Mail to local applications. The JJA Help Desk will have staff between 8 AM and 5 PM on business days. Voice mail is available for leaving messages. The number is 785-368-7309. After hours and weekend availability will be evaluated periodically regarding need.
